

Dear Friends of Humanity and the Ageless Wisdom,

Following the conclusion of the 30th International Conference of the Seven Ray Institute and University of the Seven Rays, and intensive planning for **a new nine year Cycle of Dynamic Conferences** leading to the all-important year of **2025**, we are now ready to resume our ASK Program, to be broadcast or 'webinarred' mainly from the Temple of Silence in Finland and wherever in the world we may be (when possible).

This program will now to be offered ***in a fuller form*** and some of the meditations to be offered are listed below. *The next nine years are so important that we students of spiritual occultism who know something about the power of meditation and who have been trained in spiritually occult meditation must gather all our forces to benevolently affect the consciousness of humanity during this important transitional period. Master D.K has given us some important meditations to be used at this time of preparation for the Externalization of the Hierarchy and the Reappearance of the Christ.*

Master Djwhal Khul continuously emphasizes the importance of the occult work of meditation. He points out how little we give opportunity to the Master or to the soul to influence:

LOM 276-277:

According to the success of the meditation, according to the ability of the student to shut off the lower and contact the higher, so will come the opportunity of the Master to accomplish successfully the scientific definite work that needs His attention. Students of meditation would be astounded and perhaps discouraged, could they realise how seldom they provide the right conditions through meditation which will enable their watching Teacher to bring about certain effects. By the frequency of the student's ability to do this comes indication of progress, and the possibility of carrying him on another step. Emphasise this point in teaching, for it carries with it an incentive to greater diligence and application. If the pupil himself on his side provides not the just conditions, the Master's hands are tied and He can do but little. *Self-effort is the key to progress, coupled to conscious comprehending application to the work laid down.* When that effort is made with perseverance, then comes the opportunity of the Master to carry out His side of the work.

FM=Full Moon - In the Soul of the Nation meditations may come changes without notice!

Given that these meditations are supposed to be available to as many people in the world as possible, the purpose of the alternation is to make it possible for more meditators to join. For some both times may be possible, but for others only one time will be possible according to their schedule.

We realize that this Meditation Schedule is intense and it may not be possible for you to participate in all of them (and at times we may have to postpone a certain meditation until the next week or so), but given the condition of humanity's consciousness, we believe that an all-out Meditation Program in support of Hierarchical Intentions is now strongly needed. Please do your best to be with us!

For One Great Unified Effort For the Illumination of Humanity!
