1. THE PURPOSE OF INCARNATION, IS SELF-REALISATION

To realise that we are souls, working through bodies: mind, emotions, physical; and that our higher destiny is spiritual not physical.

...

This realisation comes through interacting with other souls (minds, emotions, physicals) and by struggling to be

Success comes thru understanding our forces and adapting them so we are successful in material life and relationships, later in our spiritual life²

2. FIRST WE DISCOVER WHO WE ARE ON THE OUTER LEVEL

a. Mind Ray

How we think

b. Emotional Ray

How we feel about things,
what we desire

c. Physical Ray

How we organise our
physical plane life

As we deal with life, with our disappointments and successes, gradually we become wiser and more discriminating – the **PERSONALITY RAY** forms... and soon after, the **SOUL RAY** begins to influence.

EG: 1) A Ray 5 of Concrete Mind and Science discriminating mind has emotion if Mercury is in a water sign – Cancer, Scorpio, Pisces.

2) A R4 artistic and emotional mind, is more discerning if Mercury is in an air sign – Gemini, Libra, Aquarius.

3. OUR SOUL BRINGS US TO THE “PATH”

When the **SOUL RAY** becomes influential, it means we are on “the Path of Spiritual Development” and are now being influenced by the Master of our ray ashram. Many of us are in the Ray 2 Ashram and are under the guidance of Master Djwhal Khul.

*The **SOUL RAY** determines our vocational orientation*

PERSONAL ANALYSIS**

RAYS AND ASTROLOGY

1. To identify those qualities to develop, soul service and vocation, things to aspire towards, study the Soul Ray and Ascendant sign

2. To identify those negatives to balance, positives to cultivate, study the

4. LIFE IS STRESSFUL, RESULTING IN ILLNESS

During incarnation as we are learning and growing – and because we are not yet perfect souls, we have psychological and physical health problems.

Such issues are a natural and normal part of being a soul in incarnation.

The mediums through which we – as souls, are working (mind, emotions, physical); they become stressed, worn out, break down – just like cars break down through use and age.

The fundamental cause is that the substance of our bodies has not yet been brought into energy synchronicity with our souls, with the universal flow and life.

As the soul strikes a point of friction within our mental and emotional bodies, there is a potential seed of physical illness. As we ease that tension psychologically, that seed dissolves.

However, at the end of an incarnation, we can succumb to any illness. This assists the soul to drop off the body in preparation for a new incarnation.

Remember that, organic problems aside, health problems are caused by the imperfect flow of **“ENERGY”**

the relation or non-relation of forces, the clashing of energies, the inability to handle inpouring forces.

**4a. Here is the overview given previously of Psychology Problems.
All physical illness – unless due to a group karmic origin or a true accident,
starts within our psychology.**

Problems of Consciousness - Root Causes of all Psychological Disorders

A. Three Major Groups of Psychology Problems (affect all humanity)				B. Mystics - Disciples (people living a spiritual life)	
1. Cleavage	2. Integration	3. Stimulation		Accelerated development	
Energy divisions	Energy swings	Energy overstimulation		Energy swings	Energy, divisions, overstimulation
Divisions in the nature which war with each other.	Energy swings in the nature when a cleavage heals.	Mentally developed people become rigid-minded due to too intense concentration on one line of thought.	Emotional people lacking discrimination become "glamoured", distort reality; when meditation opens up new worlds of discovery. Naively follow voices, messages, there may be troubled dreams.	Chakra development causes energy imbalance.	Mystics who lack discrimination, may use lower psychic powers, become deluded.

4b. POINTS TO PONDER WHEN DOING A HEALTH ANALYSIS RAYS AND ASTROLOGY

1. A preponderance of rays within our make-up can influence the type of diseases we catch.

EG: 1) Too much ray 2, the building ray, gives a tendency to excess. When this is present in our psychology and expressed, for instance in over-eating; this can lead to obesity, overgrowth of parts or organs, tumors.

2) Too much ray 1 – may accompany diseases that strike suddenly, with devastating consequences. For instance a stroke, or even AIDS

2. In Astrology, the most intense stress pattern in a chart (often a T-square), especially if it has links to the 6th house of health or 12th of hospitals; could indicate the most dangerous health complication that could face a person.

The following example is of Lawson Bracewell who died in 2014.

LB was born on 13th July 1943 at Milaca USA, and died 15 July 2014 at approximately 11.05am.

He had a R2 soul and R1 personality.

The major stress pattern is as shown.

1. Sun (vitality, heart) in Cancer, wide conjunction to Jupiter-Pluto in Leo.

The two body parts highlighted in this stress pattern are stomach (Cancer) and Heart (Sun and Leo).

2. Ascendant opposite inflammatory Mars (physical body, drive and activity)

Here is the trouble maker. Mars bringing conflict and disruptions, rules the 6th house of "illness". It is in stubborn Taurus in the 7th house of "others". This indicates that LB's personality would want to go to war with those who he thought stood in his way. As a soul, he was modifying this pattern, but stressful interactions would eventually take their toll, affecting the physical body generally (ascendant), and the heart (Mars square Leo planets, especially Jupiter [arteries]).

3. Mars square Jupiter (arteries) in Leo (heart); and Pluto

The physical body in all living forms eventually breaks down, releasing the soul in preparation for a new incarnation experience. All the signs point to heart disease in later life for LB. This is quite normal for disciples as Master DK points out:

"Heart disease.. Disciples and initiates are prone to suffer from this disease, owing to the awakening into violent activity of the heart centre. " Esoteric Healing p238.

In Summary:

A study of our rays and astrology, gives insight into our journey through this incarnation, and what we need to do to move closer to Self-Realisation – the fully conscious realisation that we are energetically, spiritually whole and intact expressions of God’s will, love and intelligence.
