WHAT IF

Plasma connects

"From the smallest particle to the largest galactic formation, a web of electrical circuitry connects and unifies all of nature, organizing galaxies, energizing stars, giving birth to planets and, on our own world, controlling weather and animating biological organisms. There are no isolated islands in an electric universe".

Rapidly moving triangle

Palpitating with every color

- By the time the third Initiation is reached, a wondrous transformation has transpired. The outer sphere is palpitating with every colour in the rainbow, and is of wide radius; the streams of electrical energy circulating in it are so powerful that they are escaping beyond the periphery of the circle, resembling the rays of the sun. The nine petals are fully unfolded, forming a gracious setting for the central jewel, and their orange hue is now of a gorgeous translucence, shot with many colours, that of the egoic ray predominating. The triangle at the base is now quickened and scintillating, and the three points are small blazing fires, showing to the eye of the clairvoyant as sevenfold whorls of light, circulating their light from point to point of a rapidly moving triangle." (TCF 764)

*All Seeing Eye
Shamballa...*

*is a world of pure energy, of light and directed force;
it can be seen as streams and centers of force, all forming a pattern
of consummate beauty...*

*Alice A. Bailey
Discipleship in the New Age, Vol. 2*

Interlacing streams of triadic energy.

- **“It is useless for students to attempt to unravel this aggregation of interlacing streams of energy. All that is now possible for man with his present equipment is to accept hypothetically these statements anent certain major triangles which affect humanity and seek to prove their effect and to endeavour to arrive at some understanding of that intricate, interwoven network which he himself possesses and to which he gives the name "etheric body." Astrologers have begun to grasp a dim idea of the interlocking triangles of energy as far as our Earth is concerned in the rather arbitrary division of the twelve constellations into four triplicities, covered by such qualifying terms as earthy triplicity or fiery triplicity, composed each of a cardinal, a fixed and a mutable sign. They thus divide up the entire zodiac into a fourfold group of interlacing and interrelated triads, each conditioned by one of the basic elements and thus qualified.”**

Ordered geometric rising of the fire.

- **“It would repay the student to contemplate the interesting succession of triangles that are to be found and the way in which they must be linked by the progression of the fire before that fire can perfectly vivify them, and thence pass on to other transmutations. We might enumerate some of these triangles, bearing always in mind that according to the ray so will proceed the geometric rising of the fire, and according to the ray so will the points be touched in ordered sequence. Herein lies one of the secrets of initiation....” (TCF)**
- **“Each life that the Personality leads is, at the close, represented by some geometrical figure, some utilisation of the lines of the cube, and their demonstration in a form of some kind. Intricate and uncertain in outline and crude in design are the forms of the earlier lives; definite and clear in outline are the forms built by the average advanced man of this generation. But when he steps upon the Path of Discipleship, the purpose consists in merging all these many lines into one line, and gradually this consummation is achieved.” (LOM 6)**

Loose grid of squares

This grid is open and vulnerable to the entry of negative and undesirable forces.

By drawing lines of lighted substance diagonally across these open squares evil is sealed from entry.

Tight grid of triangles

This is a simulated grid of an electric field. This sphere has 9,823 points and 29,463 links in its triangle mesh.

It is impervious to outside forces and can only be destroyed by the light within.

Telepathic Mental Grid

The whole etheric body is in constant motion

“It is well-nigh impossible for man to draw or make a picture of the network of triangles and, at the same time, see them taking the circular form in their totality of the etheric body of the planetary sphere. The reason is that the whole etheric body is in constant motion and ceaseless transformation, and the energies of which it is composed are in a state of constant change and circulation.” (TEV 165)
