A contraction followed by an outgoing expansive display of energy.

-
- **“The positive nuclei in each case are affected by this flashing forth of electric fire, or energy. Each point concerned responds by a primary contraction followed by an outgoing or expansive display of energy. Each Identity concerned proceeds to sound a WORD. This sound expands into a mantram and the solar angels vibrate in response.” (TCF721-3)**

Deva Premal “Mantra of Love”

These multitudes of egoic groups form a radiant interlocking whole.

- **“These multitudes of egoic groups form a radiant interlocking whole, though all are diverse and differing, both as to their point of development, and their secondary colouring. Just as the petals in the egoic lotus of the incarnating jivas unfold in differing order and at different periods, so the egoic groups also unfold diversely as to time and sequence. This produces a wonderful appearance. Again just as the Master can (by [Page 770] studying the group or larger lotus of which He is a part), ascertain the condition of the human units who go to its constitution, so the planetary Logos can ascertain through conscious identification (note the term) the condition of the various groups through whom His work must be accomplished.” (TCF 770-71)**

All members of the human family are gathered and placed according to:

a. their rythumn. b. their quality c. their heat d. their light
e. their magnetic influence f. their radiation g. their activity

This tabulation is but an extension of the major one which grouped all Egos
under the division of color, sound and vibration.
