GEMINI

The house that Gemini rules is a source of education and learning for you; where you will be curious, versatile and fun-loving; what you like to talk and think about.

- In 3rd house the soul brings the lower self into contact with people and knowledge which will develop the logical mind.
 - – communication, relatives, siblings, early education all directed to opening the mind.
- The lower self keeps busy, travels around making contact and communicating with other and receives education to develop the mind.
- When the mind is developed the first tentative steps on the Path are to make connections with others who share similar ideas and eventually the personality begins to communicate in a new and higher way with others.

- **Exoteric Ruler - Mercury** – R4 – Messenger of the Gods – Hermes
- Mercury (eso) in Aries – initiation of ideas, specific
- Mercury (exo) in Gemini – at home, mental, moves quickly, multiplicity of ideas. Where there is ‘manyness’, however, can’t go deep, there is more breadth than depth.

- Venus (exo) in Taurus – beauty of form
- Venus (exo) in Libra – beauty of ideas and how to be in relationship

9th House – House of Sagittarius – Rays 4,5,6 – Mutable Fire November 22 - December 21

- Sagittarius is the ninth sign of the Zodiac and late autumn.
- mutable fire speaks of tremendous action
- the line is divided which illustrates the duality inherent in this sign (like Gemini)
- It is often at a loss how to aim great physical or mental powers, therefore depicts battle between constructive (noble attributes of man) and destructive (most bestial of carnal habits)
- Therefore centaur as old symbol - spirit vs. animal/instinctive nature
- rules haunches, loins, thighs and upper legs, (jumping into new experiences, moves quickly)

Strengths: Optimistic and freedom-loving, jovial, honest, straightforward, philosophical, wise, ability to see the big picture, broad-minded, global vision, idealistic, rapid intuition, adventurous, love of experience, athletic, generous, just, religious, scholarly, enthusiastic

- Indicates the greatest areas of harmony, abundance, synthesis.
- It is fullness, fulfillment and corrects lopsidedness. It is progressiveness, 2nd and 7th ray together, pride and pomp.
- It facilitates fusion of the heart and mind to produce wisdom.

- Associated with the growth of wisdom and the expansion of consciousness. It is the beneficent method of evolutionary unfoldment, love, wisdom – R2
- In its lowest aspect – fulfillment of desire and satisfied demand. In its highest aspect – is the outgoing expression of love which attracts magnetically to itself that which is desired.
- It is philosophies, belief systems, principles, the true and sacred.
- **To the soul** – represents where the life can be expanded and brotherly love expressed.
- **Placement in the chart** – represents grace and shows what sorts of experience and modes of activity generate an inner faith and confidence in oneself.

Esoteric Ruler - Earth

(found directly opposite the sun sign)

- opens up the realms of the soul through the crisis (crosses) of matter
- keyword - selectivity because of the practical grounded approach
- It is a non-sacred planet –in the process of becoming sacred, interim of upheaval, chaos, suffering, difficulty which we are a part of
- It has a pivotal importance in the life of all Earth beings. It indicates the condition of one's vitality; insufficient vitality or excessive vitality poorly distributed can thwart soul's intent. Abundant, well-regulated vitality is a definite boon to the fulfillment of the Soul's archetypical design.

- We must not forget the energy, which emanates from or radiates from the earth itself. Man is always bathed in the emanations and radiations of our earth.
- Sagittarius can get lost in the manyness, Earth brings the energy down and grounds it, holds it down, it is practical and select
- The aspect of life on Earth although felt by everyone is especially strong for signs of the element earth – Taurus, Virgo, Capricorn
- The first impulse for Man is to be and then to create. Earthy people create something out of matter through the gathering of material possessions and the actual building of the physical aspects of Man: his industries, his homes, his physical body. We therefore refer to the earthy element as the force of Form.

Focus change from Jupiter to the Earth

- Aspects between Jupiter and Earth in your chart relate to fulfillment.
- If they are conjunct you could be practical, grounded, manifest abundance
- harmonious aspects (sextile, trine, quintile) could indicate you manifest harmony, abundance, synthesis
- inharmonious (crosses, quincunx) aspects could indicate you create “muchness”, fulfilling desire and satisfied demand

Earth Signs:

- Taurus – one’s actual possessions
- Virgo – jobs and services
- Capricorn – governmental or business establishments or one’s social standing.
- On the positive level earthy signs: circumspection, long-range planning, determination to succeed and practicality.
- On a negative level earthy signs: too demanding, melancholy, greedy and fearful.
- Earth is unequally the ‘planet of releasing sorrow and of purifying pain’.
- It is directly opposite the sun.

- **To the soul** – represents the field of experience to bring about Soul growth
- As the ray of the Abstract Mind – R3, it provides a field of practical experience where intelligence can be developed, where personality consciousness can be transformed into group awareness, and right balance in the nature can be achieved.
- **As an Exoteric ruler** – none
- **Esoteric Ruler** of *Sagittarius* – polar opposite of *Gemini*. Earth is related to Gemini, to the brother whose light is waning since Earth is not a sacred planet.
- **Esoteric**- Earth is a school for souls as we progress from grade to grade in order to learn the laws of life and coordinate our activities in line with a gaining sense of direction. In the Sagittarian cycle our journey through life on the terrestrial plane we follow a path that leads upward.

Gemini – Sagittarius

Summary

- Gemini represents duality, love-wisdom, and fluidity
 - It governs control of every pair of opposites
 - The underlying love of Deity reaches our solar system through Gemini
- Sagittarius is focused direction; one-pointed activity
 - In the early stages, satisfaction of desire;
 - In later stages aspiration for the goal of initiation
- Gemini is control of the opposites
 - Synthesized at-one-ment
- Sagittarius one-pointed preparation for initiation
- The axis establishes control of the opposites and resolves duality for use in one-pointed spiritual action

Gemini is sometimes called the "constellation of the resolution of duality into a fluid synthesis"

It governs all the pairs of opposites, preserving the magnetic interplay between them, keeping them fluid in their relations in order eventually to facilitate their transmutation into unity

For the two must finally become the One The twelve opposites must become the blended six, and this is brought about by the fusion in consciousness of the polar opposites

To the initiate whose intuition is functioning they constitute but six great potencies, because he has achieved "the freedom of the two" as it is sometimes called
