\*Adapted from *The Seven Planes of our Solar System* (IHS, pg. xv) with TCF pgs. 188-189 added. Note there is a change in the names of the physical subplanes in the transition from IHS (col. 2) to TCF (col. 4).

- The numbers in the leftmost column are the planes (1<sup>st</sup> digit) and subplanes (2<sup>nd</sup> digit) counting both digits from above to below, that is, from the higher vibrations to the lower vibrations.
- The numbers in the rightmost column are the senses numbered 1 through 5 for the physical and astral planes and 1 through 7 for the mental, intuitional and spiritual planes. You can track the higher correspondences using these numbers – all 1's, all 2's etc., each being on its own subplane.
