D.K.'s instruction regarding the Great Invocation

- *I would ask you to collect all that I have said or written anent the Invocation and then prepare a brief manual as to its use and purpose, putting a copy in the hands of all those who are willing to use it.*
- *A comprehension of its origin, meaning and potency will render it far more effective.* R&Ip760

The Great Invocation

A Cosmic event

Cosmic source

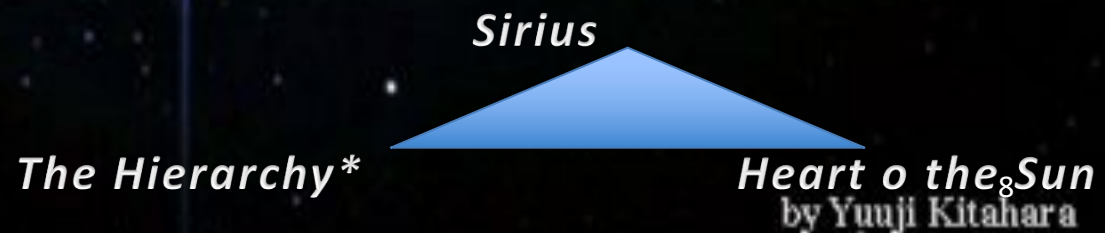

- *I wonder, brother of mine, if you have grasped the momentous significance of this presentation of a cosmic, planetary and individual alignment exercise, prayer or Invocation?*
- *It provides, as a result of its correct use, a spiritual inflow right to the very heart of humanity and from the highest sources.*
- *In receiving this Invocation, in its use and distribution, you have been participating in a cosmic event of tremendous importance. DINA II p187*

- *A stream of energy coming from the sun, Sirius;*
- *this enters directly into the Hierarchy and carries with it the principle of buddhi, of cosmic love.*
- *This, in a mysterious way, is the principle found at the heart of every atom. R&I p415*

- *Sirius is the soul of the Solar Logos CF592*
- *Sirius has a very close relationship with our Planetary Logos R&I p414*
- *Sirius is very important factor in the spiritual life of the planet, brings its energies to bear direct upon the Hierarchy DINAI p520*

I.e. The energy from Sirius enters our planetary life through Hierarchy i.e. the heart chakra of our Planetary Logos hence it deals with the life aspect or buddhi: Hierarchy is located on the buddhic plane

The energy evoked in response to this relationship enters the Hierarchy via the Heart of the Sun, creating as a consequence a triangle of spiritual energy of enormous potency.

GEMINI AND LOVE

- **Gemini** is the force which produces the changes needed for the evolution of the Christ consciousness at any particular point in time and space.EA345
- Gemini is the dominant power in the Mutable Cross & one of the paramount zodiacal signs EA345

Why?

- Gemini & its inherent 2nd ray influence of Love and Wisdom, controls every one of the pairs of opposites in the Great Wheel.EA346
- The 2nd Ray of Love-Wisdom pours through Gemini hence love underlies the entire universe. God is love...EA348

Making it

- one of the most important of the twelve signs and its influence lies behind everyone of them EA348

Gemini and our solar system

Gemini controls esoterically the heart of our solar system and thus controls the pulsation of life which sustains all that is...

Gemini is, therefore, connected with the heart of the Sun ...The LOVE of the Whole EA351

Sirius

Cosmic Love from Sirius

Special link between our Logos and the Sirian Logos

Our Planetary Logos
hierarchical ruler ♃
esoteric ruler ♊
polar opposite of ♋

The cosmic line of force from Gemini to Sagittarius and the reverse, is subjectively and esoterically related to our Earth, thus guaranteeing its soul development, the unfoldment of form as an expression of that soul EA356

forms a point of entrance for cosmic energy from Sirius EA348

If Hierarchy is the heart chakra of our Logos represented as a lotus, then the Christ, being the head of Hierarchy, is the jewel of that lotus.

Christ is a Sirian initiate and is the embodiment of the Cosmic Ray of Love and Wisdom which flows through him and through the jewel of every atom.

Christ receives permission from Sanat Kumara

- *At the June full moon of 1945, Christ “announced His decision as final and irrevocable” to reappear again on the physical plane.*
- *.....The decision of Christ to appear again among men, bringing His disciples with Him, drew forth this permission from the Lord of the World, the Ancient of Days.*
- *The right to use certain great Words of Power or "Stanzas of Direction" is never lightly accorded* ROC73

Historical background

- When the Christ announced His decision, he was given *“permission or rather the right to use a certain great Invocation—never before granted”*.
ROC72
- As it is *one which hitherto had not been permitted to be used except by the most exalted, spiritual Beings*

The Great Invocation used for the first time by Christ himself

He used it Himself for the first time, we are told, at the time of the Full Moon of June, 1945, which is recognised as the Full Moon of the Christ

ROC31

Christ instructed D.K.

- *Some time ago I gave out to the world—under instruction from the Christ—an Invocation that is destined to become of major usefulness in bringing about certain great events.* R&I p755

Summary: The Great Invocation, a cosmic event.

The Christ Head of Hierarchy

Master D.K.

Humanity on Earth

Christ's experience at
Gethsemane

Christ's evocation of Shamballa force

Christ's evocation of the fire of the will was initiated symbolically in the Garden of Gethsemane R&Ip92

Once in the Temple of Jerusalem as a child,

and again in the Garden

His third and final response ...covers nine years, from the Full Moon of June, 1936, to the Full Moon of June, 1945.

This period, in reality, constitutes one event to Him Who lives now free in His Own world.... R&Ip91

What happened at Gethsemane?

- *Something new, yet planned for from the very depth of time, happened then in that quiet garden*
EXH606

Christ, for the first time, anchored on earth a tenuous thread of the divine Will. EXH605

...which even, after two thousand years, is but a thin, frail line of connecting energy.
EXH344

A tenuous tread of divine will anchored

- *Christ, representing mankind, anchored or established the Father's will on earth and made it possible for intelligent humanity to carry it out. EXH606*

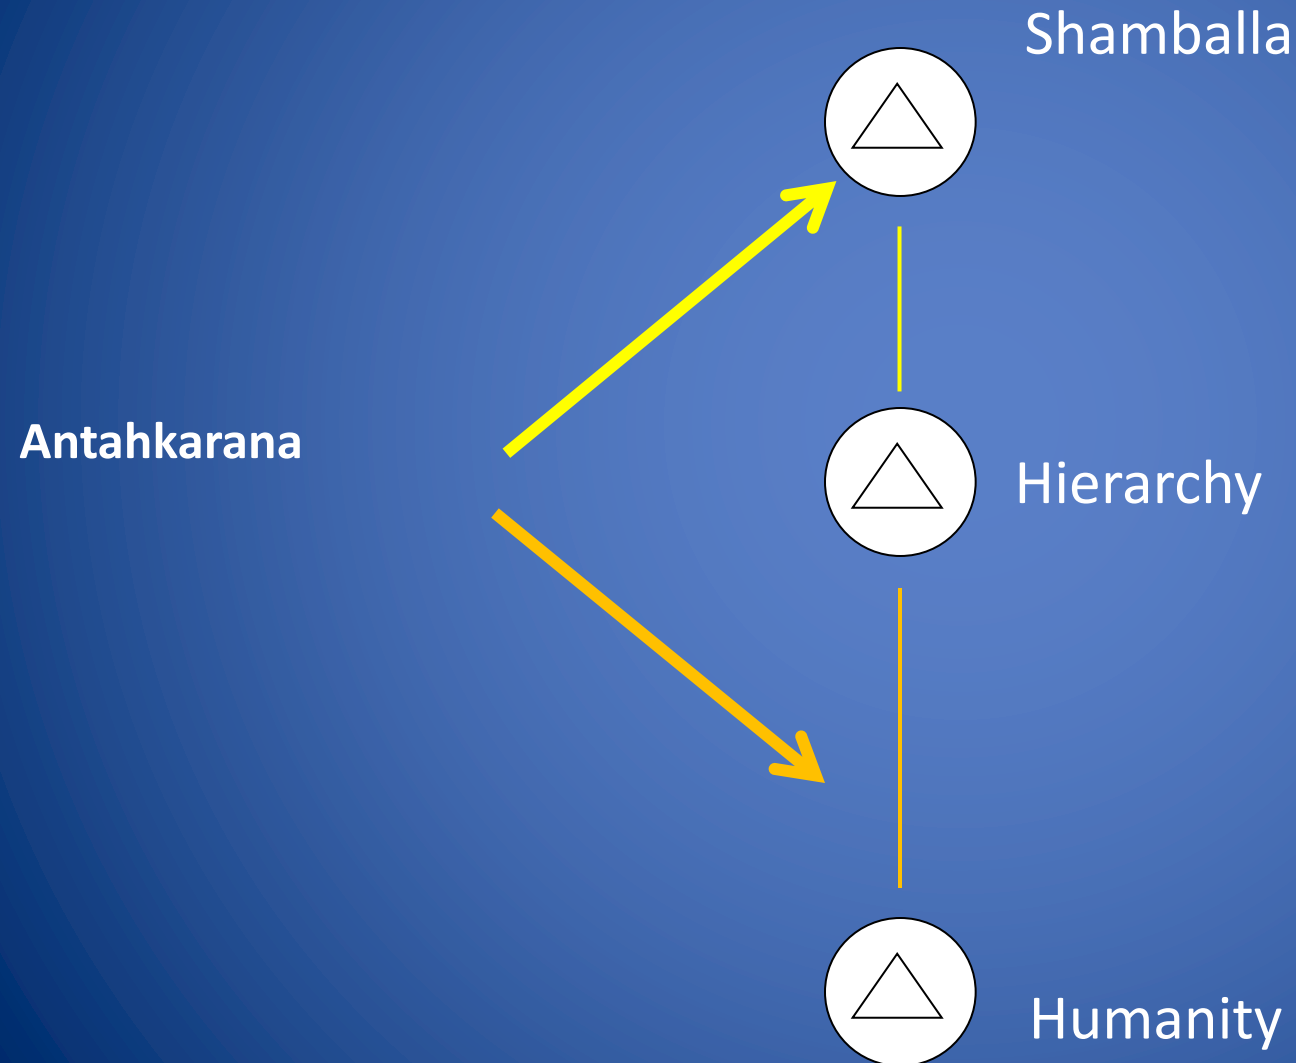

Stained glass at [First Reformed United Church of Christ of Burlington, North Carolina.](#)

Christ and the Angel of Capricorn

- *It was the "angel, born under Capricorn" which came to Christ in the garden of Gethsemane and fused His individual will into the divine Will and thus enabled Him to carry out His mission to completion.*
- *He came "to fabricate the gossamer thread which bound the two together and linked the place of the Most High (Shamballa) with the Holy City (Hierarchy).*
- *....The will of God could now be carried to fruition."EA633*

Christ and the Planetary Antahkarana

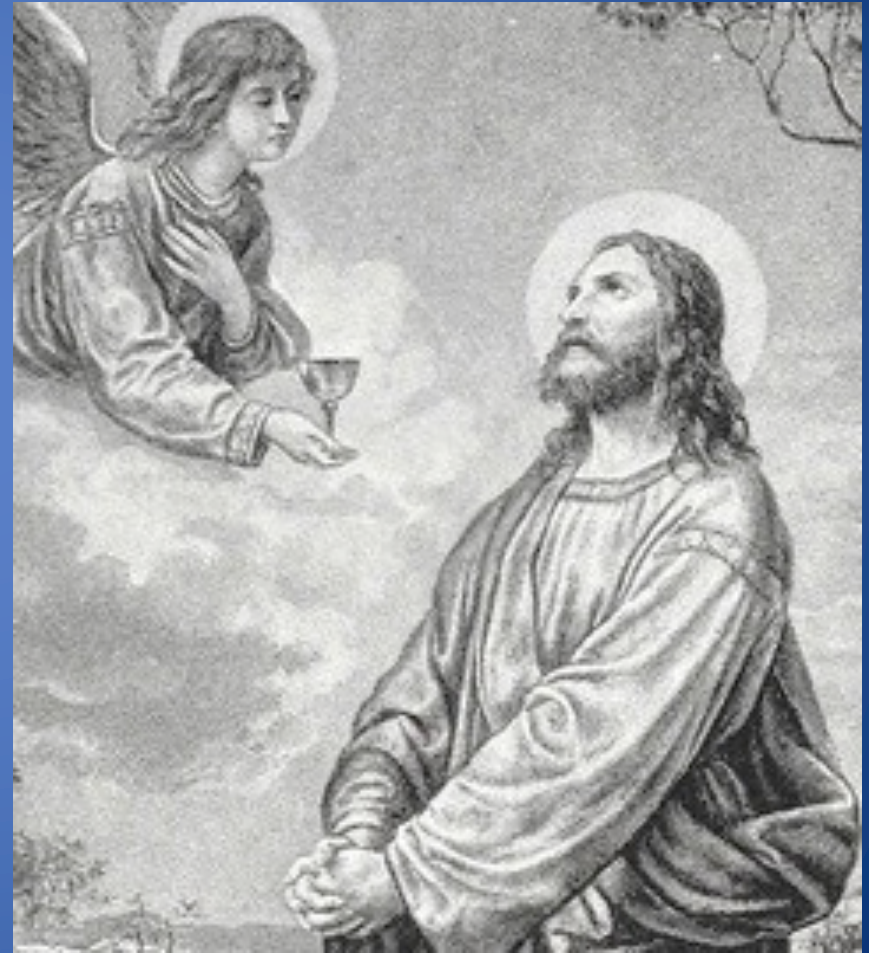

This He did by virtue of a completely finished and constructed antahkarana, and

thus He facilitated the work of all future aspirants and disciples.

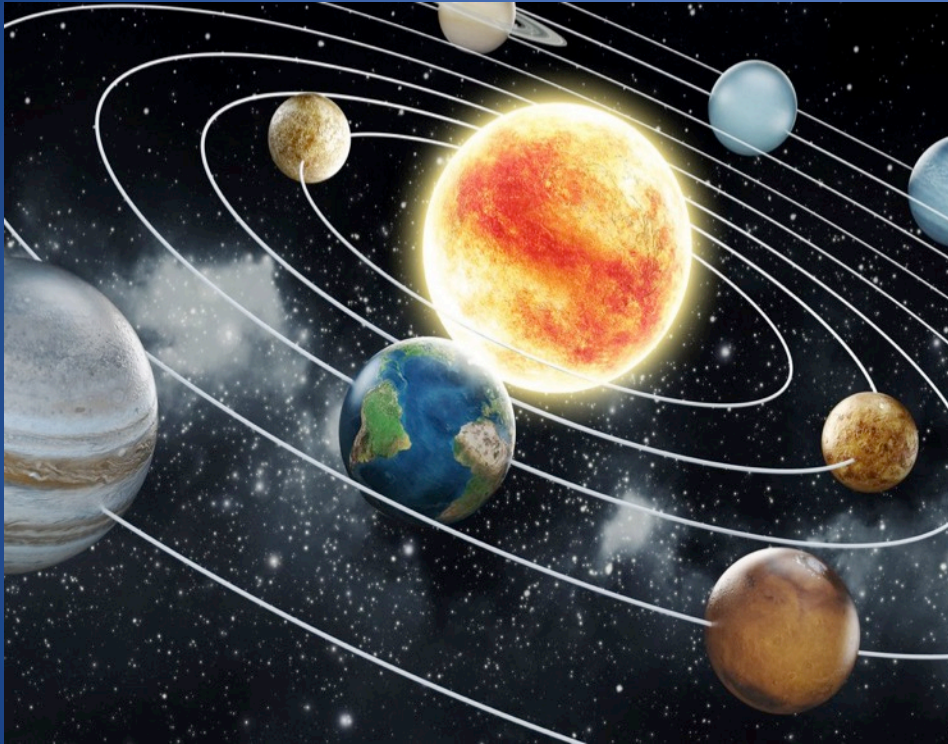

He made possible their unimpeded progress, as far as the opening of each stage of the planetary antahkarana is concerned.

Correct interpretation of Angels counselling the Christ

- *Where it says in The New Testament that, "angels came and ministered unto "the Christ",*
- *the correct implication is that Those Who dwell and work in Shamballa use this period to instruct the initiate who has made his decision through an expression of his divine nature and in the significance of the divine purpose*

What was the nature of the counsel?

this concerns the relation of our planetary Logos to the solar system, and

decision is made through the development of that higher sensitivity which leads inevitably to cosmic perception. R&I723

Having fused will and
Love,
*his consciousness
became extra-planetary
as is the consciousness of
the Lord of the World,
He could then touch
certain heights of
awareness and contact
certain solar Agencies
which had never before
been contacted by man.*

EXHp162

*By uttering "Father, not my will but
Thine be done,"
Christ expressed the Will of the Father
in Love.*

*The Christ,
kneeling beside the rock*

*(symbolic of the depths of the
mineral kingdom and of the
activity of Vulcan, the
fashioner),*

*raises His eyes upward
to where the light of
revelation breaks forth
and*

*knows at that moment
what it is He has to do.*

EA393

The light of revelation

*At the moment
of His complete
surrender to the
necessary
sacrifice of His
life to the
fulfilling of the
Plan,
suddenly a
great expansion
of consciousness
took place.
R&lp289*

Christ's vision of logocic intention for humanity & planet as a whole

He received a vision of the emerging divine intention for humanity and (through humanity) for the planet as a whole. R&I p289

The Plan,

its goal,

its techniques and methods,

its laws and their application,

its phenomenal effects,

the hindrances to be met,

the energy (that of love) to be employed, and

the close and growing relation and interplay

between the Hierarchy and Humanity, ...

were known to Him and fully understood. R&I p 289

Experience of the Christ in the garden of Gethsemane: divine fusion

The Christ took the sixth initiation. R&lp524

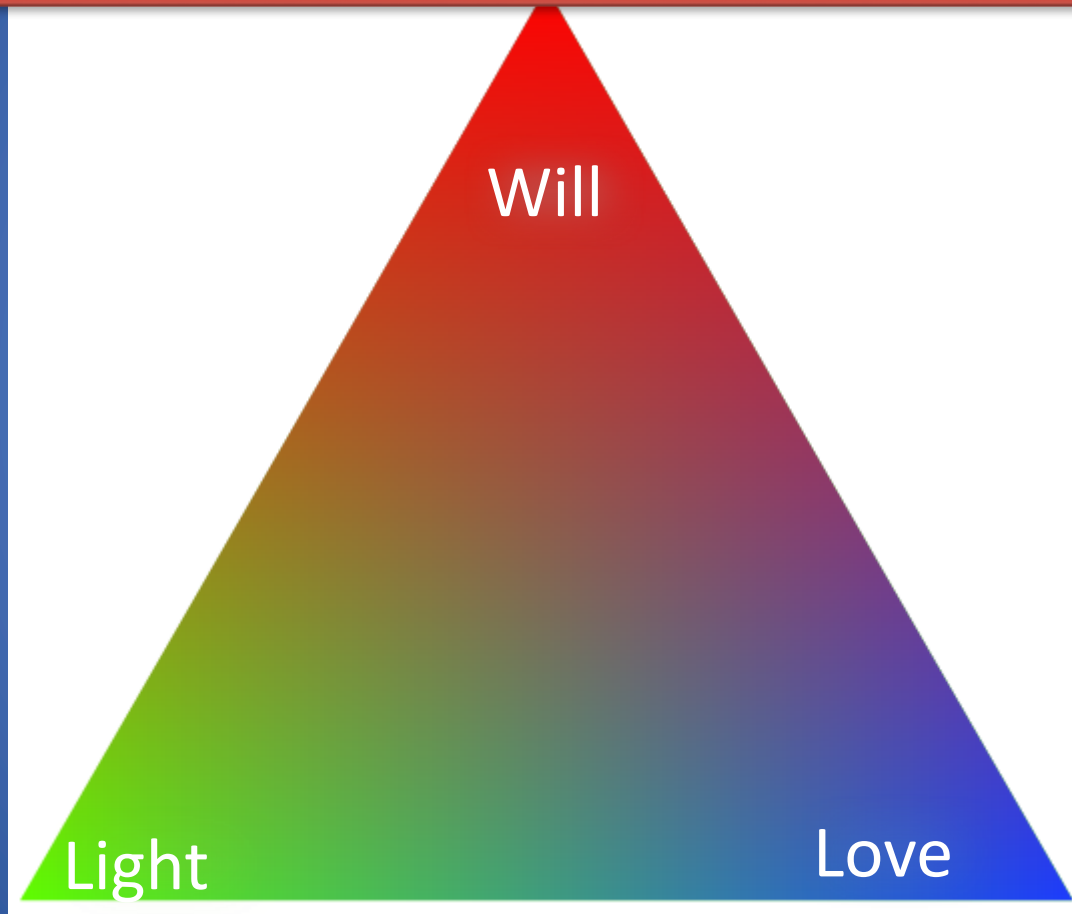

*Between the sixth and the seventh initiations
"an interim of divine fusion" takes place*

- *Seventh initiation.....can only be undergone
when the will of the Master is completely
merged in that of the planetary Logos.*

Today Christ faces initiation

- *He [Christ] ... is facing a major test, preparatory to a great initiation and when He has passed the test and fulfilled His task, He will pass to a still more exalted position in the Father's House or to some distant place of service where only the most exalted can follow Him*
- *But before all this can happen, He must again enter the public arena, play His part in world affairs, and prove the scope of His mission. ROC55*

It remains now for the highest of the divine aspects, the Will of God, to receive embodiment and for this the Christ is preparing. ROCp62

Christ embodied the 2nd aspect the Love/ wisdom and fused it with the 3rd aspect of divinity. Light and Love received full expression

The use of the Great Invocation granted as a result of Christ's decision

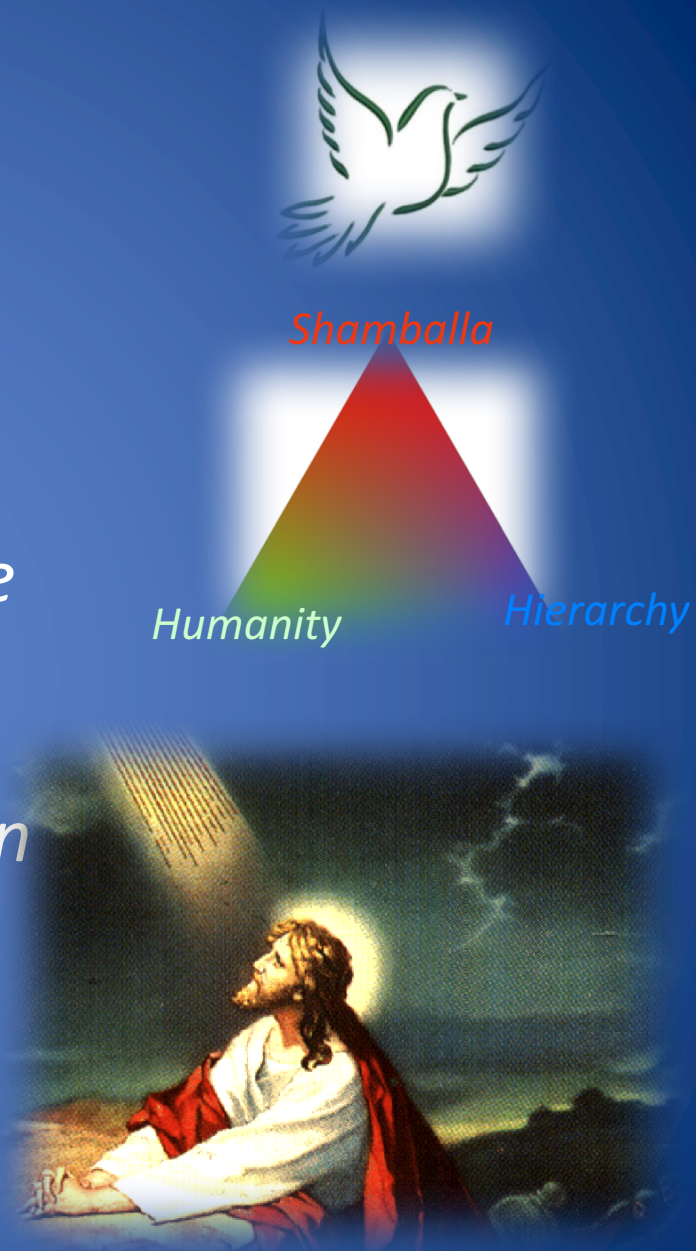

- *...the reward accorded to the Christ, as He announced His decision as final and irrevocable, was the permission or rather the right to use a certain great Invocation—never before granted . ROC72*

At the Temple and at Gethsemane
*He established, for the first time in
planetary history, contact with the
Spirit of Peace*

*He also established for the first time
in planetary history a contact
between the Hierarchy, Humanity,
Shamballa and the Spirit of Peace in
His Own high place*

*Thus enabling Him to put Humanity
in touch with the Spirit of Peace.*

EXH161-162

A glowing dove in flight, symbolizing the Spirit of Peace, is the central focus of the image. The dove is depicted with bright, ethereal light, its wings spread as if descending. The background is a deep blue with soft, radiating light rays that create a sense of divine presence and peace. The overall composition is serene and spiritual.

Spirit of Peace descended on the Christ

As a result of Christ 's decision to reappear and
the consequent granted right to use the Great
Invocation,

The Spirit of Peace descended upon Christ ROC74

Who is the Spirit of Peace?

- *The Spirit of Peace or the Spirit of Equilibrium is an extra planetary being of terrific cosmic potency. ROC74*
- *He overshadows the Christ very much like Christ overshadowed Master Jesus in Palestine.*
- *Christ serves as a channel for his directed potency as he will not descend from his high place. ROC75*
- *He is destined to bring peace eventually upon Earth, through the expression of goodwill which will bring about right human relations. ROC75*

Christ as agent of the Spirit of Peace

This achievement [establishing a planetary link between the 3 planetary centres] *enabled Him to put Humanity in touch with the Spirit of Peace.*

The Christ is then the agent of the Spirit of Peace as He overshadows the Christ who serves as a channel for his directed potency as he will not descend from his high place". ROC75

Association with The Avatar of Synthesis

- As a result of Christ's decision and His "spiritual fusion" with the Will of God, the Avatar of Synthesis has become, for the time being, His close Associate.
ROC76*

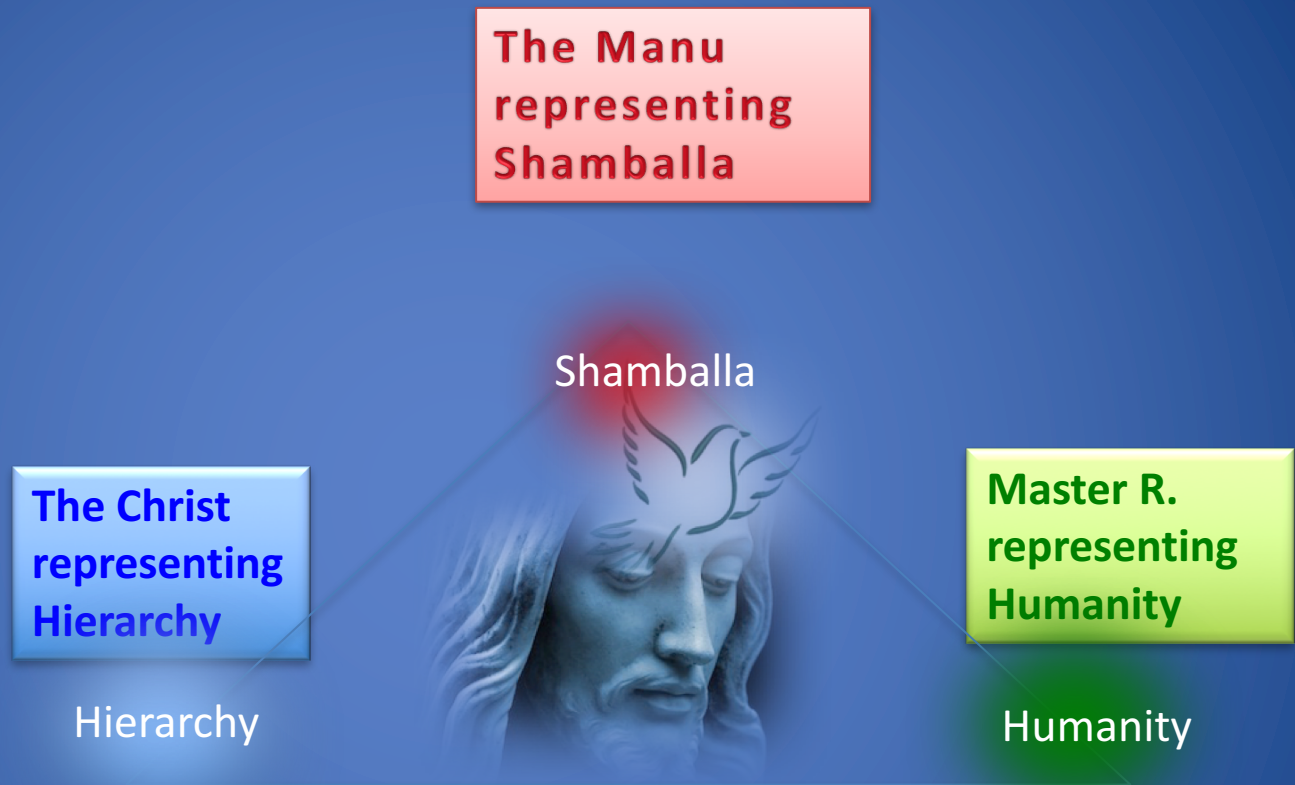

Why is the help of the “Silent Avatar” so important ?

This is an event of supreme and planetary importance. ROC76

Why?

- Because
 - *This Being is closely related to the Will Aspect of divinity &*
 - *Christ is preparing himself to embody the quality of WILL*
 - *Christ is preparing himself also to synthesise the 3 divine qualities of Light ,Love and Will. ROCp62*

Triangle of Masters invokes the Spirit of Peace

If this Great Invocation ...can be rightly said, the three great planetary centres can be related in a similar manner. ... can be brought into a close relation so that the result will be the setting up of such a potent vibration and note that the Spirit of Peace will be invoked and contacted. EXH160.1

The Great Invocation

A solar instrument

The Great Invocation: a solar instrument

- *The Great Invocation... is a potent solar instrument designed to bring about changes and needed readjustments.* EXH142

It's meant to bring about certain events :

- *1. An outpouring of love and light upon mankind, from Shamballa.*
- *2. An invocatory appeal to the Christ, the Head of the Hierarchy, to reappear.*
- *3. The establishing on earth of the divine Plan, to be accomplished willingly by humanity itself.* R&I p755

How is the Great Invocation a solar instrument?

- ◆ *Each planetary scheme, ours amongst the others, is a centre in the body Logoic, and is expressing some form of energy or force. IH&Sp23*
- ◆ *Shamballa..... is also the centre where the highest Will of the Solar Logos is imposed upon the Will of our planetary Logosthe objective of effort in Shamballa is, however, the apprehension of solar Purpose EXH534*
- ◆ *Our Planetary Logos is motivated by a supreme Purpose — “a Purpose which is part of the vast purpose of the solar Logos” TEV124*
- ◆ *They [hierarchy] act as the transmitter to men and devas or angels, of the will of the Planetary Logos, and through Him of the Solar Logos. IH&Sp23*

Christ as a transmitter of the Will of both the Planetary Logos and the Solar Logos

Christ facing a great initiation

- *Through the Planetary Logos at the final great initiation flows the power of the Solar Logos, IH&S p92*
- The Christ preparing for the great final initiation through the enunciation of the Great Invocation becomes not only an instrument for the implementation of the will of the Planetary Logos, but also consequently a solar instrument.

Nature of the Will of the Logos?

A heart-shaped Earth planet is centered in the background. The planet shows continents in green and brown and oceans in blue. The heart shape is formed by a white, glowing outline that follows the general shape of the Earth. The background is a dark blue gradient with a bright light source on the right side, creating a lens flare effect.

- *It might be said that the Purpose of the planetary Logos, as it emanates from His high place under the impact of His will-to-good, is redemptive in nature. DINAIp385*
- *The Planetary Logos created this planet strictly for redemptive purposes*
- *this little planet is essentially unique in its purpose and its techniques, and that on it and within it ... a great redemptive experiment is going forward;DINAIp385*

What is the will of the Logos?

- The will of God ... has for basic intent the bringing of peace on earth.

What is peace? It is essentially

- the establishing of right human relations,
- of synthetic rapport with its resultant cooperation,
- of correct interplay between the three planetary centres [Shamballa, Hierarchy and humanity] and
- an illumined, loving understanding of the will of God as it affects humanity and works out divine intent. EXH161

The Great Invocation as embodiment of the Will of the Logos

- *It embodies the divine intent and summarises the conclusions of the thinking of the planetary Logos.....*
 - i.e. his love and Will to manifest through humanity in his physical body (Earth)*
- *They embody... a formula which has been in possession of the Hierarchy ever since it was founded on Earth, DINAI156*
- *It must, therefore, become dynamically effective upon the physical plane*

Clear demand for the synthesis of the 3 aspects of divinity to manifest on earth

1st aspect: Will
"Let purpose guide the little wills of men"

2nd aspect: Love
"May Christ return to earth"

3rd aspect: Intelligence
"Let light descend on earth"

Earth
"Let light and love and power restore the Plan on Earth."

Always the emphasis is laid upon the place of appearance and of manifestation: the Earth.
