THE GREAT INVOCATION:
Part 3 :Its potency

Urge from D.K. to penetrate into these amazing words of extraordinary potency

- *D.K. urges us to penetrate more deeply into the 'vital' meaning of "these amazing words" DINAIp156 of "extraordinary potency" ROC30 which embody... a formula which has been in possession of the Hierarchy ever since it was founded on Earth DINAIp156*

Recollection from Foster Bailey

- *I well remember the strain of the days before the morning when, as the sun rose, Mrs. Bailey brought me the words of this Invocation as she had written them to the exact dictation of the Tibetan.*
- *It was an occasion of the most complete at-one-ment with him that she had probably ever achieved. (Foster Bailey, The Beacon, June/July 1951)*

Recollection from Mary Bailey

- John Burgess recounts from Mary Bailey's interview that *D.K. was so intent on the words of the invocation being exact that he almost materialised in the dictation room in order to accomplish the transmission...*
- *it had to be recorded as close to the ancient phrases as possible using specific English wording*

"Sacred Vessel of the Mysteries" p37

Words of the Great Invocation ancient

- *It has been difficult to translate into understandable and adequate phrases the very ancient word-forms which the Christ will employ.*
- *These word-forms are only seven in number, and they will constitute His complete, new utterance.*
- *But even in this longer form, they will be potent in their invocative appeal, if said with mental intensity and ardent purpose. DINAIIP148*

So powerful that it evoked some opposition within hierarchy

- *The Great Invocation..., is a potent solar instrument designed to bring about changes and needed readjustments.*
- *It is so powerful that when it was suggested for general use in the world of men some opposition was evoked among the members of the Hierarchy because They feared its potent effects upon the unready, and undeveloped people.*
- *Its use has, however, been justified and it is desired that its usefulness should be very greatly increased and its use far more widely spread. EXH 142*

Great Invocation as the new world prayer

- *This new Invocation, if given widespread distribution, can be to the new world religion what the Lord's Prayer has been to Christianity and the 23rd Psalm has been to the spiritually minded Jew. ROC32*
- *The science of invocation and evocation will take the place of what we now call "prayer" and "worship."*

Soul- mind- brain alignment

Mind-brain connection

The brain and the nervous system

- *“The human brain is the central organ of the human nervous system and with the spinal cord makes up the central nervous system.”*
Wikipedia
- The nervous system is the concretisation of the nadis, the etheric nervous system called the nadis.

Nadis and consciousness

- *These nadis ...carry the quality of energy from some area of consciousness in which the "dweller in the body" may happen to be focussed.*
- *This may be the astral plane or the planes of the Spiritual Triad, for none of the energies can control the physical body from any plane, no matter how high, except in this manner.*
- *According to the focus of the consciousness, the psychic state of awareness, the potency of aspiration or desire, and the point in evolution or the spiritual status, so will be the type of energy carried by the nadis, passing from them to the outer nervous system.TEV145*

What is the lower mind?

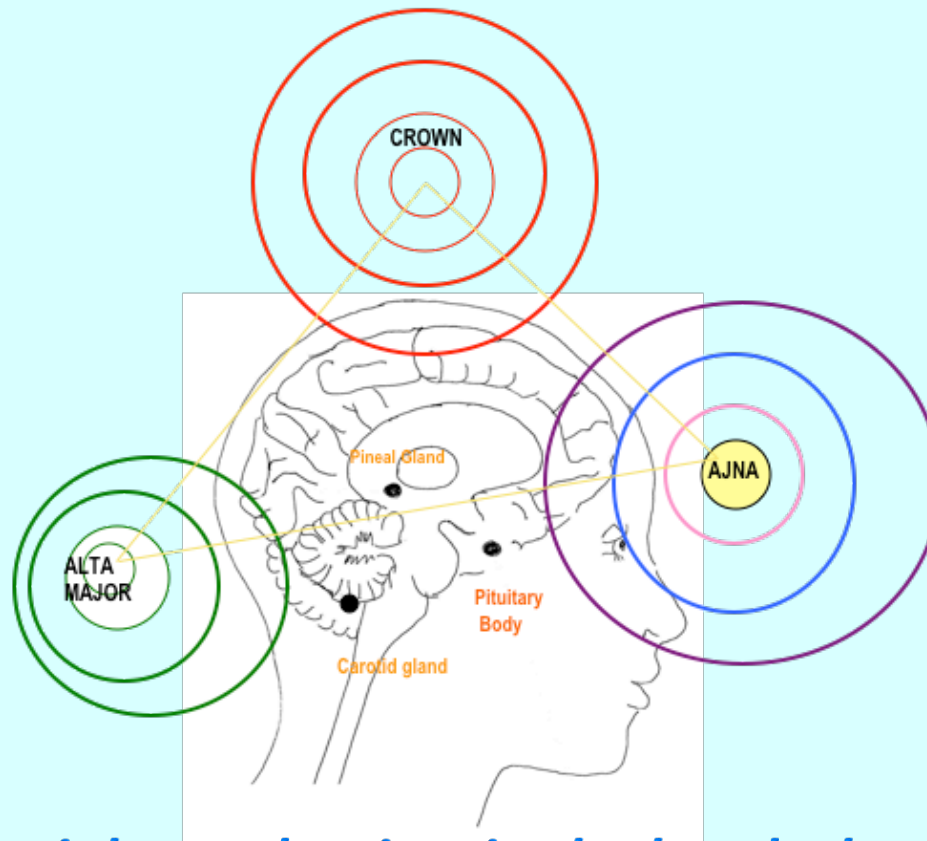

The mental plane

- *The mental body is composed of only four types of essence, whereas the astral body and the physical are formed of seven types TCF1098*

The brain as receiver and transmitter

- *The brain is a most delicate receiving ...apparatus...from the 3 head centres*

The brain, as transmitter, becomes a powerful directing agency:

- *from the alta major to the carotid gland closely related to the heart*
 - *from the ajna to the pituitary body*
 - *from the head chakra to the pineal gland*
- R&lp431*

It is this triple mechanism in the head—both objective and subjective—which uses the physical brain as a receiving agent and as a transmitting agent. R&lp432

Light from soul illumines the mind and the brain

- *If the disciple can make right alignment and consequent contact with his soul, the results show as increased light.*
- *This light pours down and irradiates not only the mind, but the brain consciousness as well.*
- *He sees the situation more clearly GLM36*

Effects of the Great Invocation : the 3 divine aspects stimulated

- *The Great Invocation, the O.M. and all such Words of Power must go forth from the soul (whose nature is love and whose purpose is solely group good),*
- *backed by or "occultly propelled forth" by the dynamic will aspect, and*
- *carried outwards as an integrated thoughtform upon a stream of living, illumined mental substance.*

This process therefore brings into activity

- **the will,**
- **the love and**
- **the intelligence of the man who is using these words and formulas. EXH145**

Effect confined to mental plane when brain can't perform dual activity

However when

the brain (the lower receiving and distributing centre within the head) is incapable of the needed dual activity—

- retaining awareness of the intent, meaning and purpose of the formula being used and, at the same time,
- carrying on the task of sending forth the potency, hidden yet conveyed by the Words or sounds.

All that he [the disciple] has succeeded in doing is the retaining of the created thoughtform upon the mental plane; he fails to make its presence felt upon the physical plane and to achieve the desired results. EXH145₂₄

Effectiveness of the Great Invocation dependent on soul-mind –brain – sound connection

These two activities must be carried on simultaneously by the soul on its own plane through the medium of the mind and the brain...

Effectiveness is, therefore, dependent upon

- a grasp of the above facts and*
- a developed and trained integration between soul, mind, desire, brain and the spoken Word or sound. EXH146*

Soul-mind-brain alignment crucial for initiation

- *It is a test—imposed with increasing rigidity as initiation after initiation is taken—to see just how far the initiate is capable of retaining or preserving in his brain consciousness the registered facts of several worlds or planes of consciousness; i.e.*
 - the three worlds of human endeavour and
 - the world of soul consciousness....
 - the world of the Ashram;
 - ...the activity of the Hierarchy itself,
 - the world of Triadal experience,
- *until the point is reached where a straight continuity of consciousness can be registered and held which comes directly from the Council Chamber of the Lord of the World to Those Masters Who are functioning in a physical body and must therefore use a physical brain.*
- *In every single case the test (in order to be passed correctly) must involve the brain consciousness; the facts, registered upon the subtler planes, must be correctly registered, recognised and interpreted simultaneously upon the physical plane. R&I433*

Clear demand for the 3 aspects of divinity to manifest on earth through the placing of the words

1st aspect: Will
“Let purpose guide the little wills of men”

2nd aspect: Love
“May Christ return to earth”

Earth
"Let Light and Love and Power restore the Plan on Earth."

3rd aspect: Intelligence
"Let light descend on earth”

Let the Plan of Love and Light work out
and May it seal the door where evil dwells

Always the emphasis is laid upon the place of appearance and of manifestation: the Earth. R&I 759

*The potency of the Great Invocation
on the Group*

Group effects of the O.M & the Great Invocation

The O.M. is potent and dynamically effective when rightly used and

- will produce changes,
- destroy that which must be eliminated or ended, and
- will build in, by attraction and consolidation that which is desired into the fabric of the group life,
- producing incidentally (though none the less certainly) needed changes and the wise reconstruction of the individual life.

onder upon this.

If the above is true of the O.M. and of its group effects, it is infinitely more true of the Great Invocation EXH145

Effects of the OM on the individual

The effect upon each body will be threefold :

On Mental Levels:

a—The contacting of the head centre...The stilling of the lower mind.

b—Linking up with the Ego

c—The driving out of coarse particles and the building in of finer.

On Emotional Levels:

a—The definite stabilisation of the emotional body.. and the contacting and setting in motion of the heart centre.

b—The driving out of coarse matter and the rendering of the emotional or desire body more colourless,

c—It causes a sudden rush of feeling from the atomic levels of the emotional plane to the intuitional plane, It sweeps upward and clarifies the channel.

On the Physical Planes:

a—Here the effect is very similar, but the primary effect is on the etheric body; it stimulates the divine flow.

b—It passes beyond the periphery of the body and creates a shell that serves as a protection. It drives away discordant factors in the near environment. LOM 62-63

4th
effect:
a funnel
is
formed

The collective use of form in meditation, ...employing sound and rhythm, should open up a funnel of communication between those taking part in them and the Intelligences or Powers they are seeking to approach. LOM191

When through the correct intoning of certain sounds, this vacuum or empty funnel between the higher and the lower is formed, force or power of some manifestation of fohatic energy pours into the funnel under the inevitable working of the law, and, via that funnel, reaches its objective..LOM192

***When congregations of men
can sound it correctly on
the right note and in the
right cadence or rhythm,***

***then the downflow of force
from above ...will be
such that***

***the vivification of the
microcosm will affect
the surrounding
country and
environment.***

***It will cause corresponding
stimulation in all the
kingdoms of nature***
LOM194

Other group effects of the OM

What results, therefore, when the Word is correctly sounded by a group of people rightly intermingled?

- a. A strong current is set up .. Put(s) the group en rapport with the Brotherhood,*
- b. A vacuum is created ...between a group and Those on the inner side.*
- c. all three groups—the lower, [personalities] the higher [egoic groups] and the Brotherhood—linked in a triangle for the transmission of force.*
- d. It has a definite effect*
 - on the physical vehicles of the lower group;*
 - it intensifies the vibration of the emotional bodies,*
 - it stimulates the lower mind, yet at the same time opens the connection with the higher, which higher, entering in, stabilises the lower concrete mind.*

- e. It attracts the attention of certain of the devas*
- f. It creates a protective shell around the group*
- g. It aids in the work of evolution Infinitesimal that aid may be, yet every effort ... that stimulates vibration and facilitates the contact between the higher and the lower is an instrument in the hand of the Logos for the hastening of His plan. LOM66-67*

Group effects of the Great Invocation even more amplified

Ponder upon this.

If the above is true of the O.M. and of its group effects, it is infinitely more true of the Great Invocation EXH145

Rhythm

Creation of funnel of communication through sound and rhythm

*Planetary effects of the Great
Invocation*

On a planetary scale, the planetary soul, mind and brain are being aligned through the Great Invocation,

Humanity ...is in reality the brain of the planetary Deity, its many units being analogous to the brain cells in the human apparatus. WM527

- Hierarchy, impressed by Shamballa, records its purpose and implements the Plan of Love and light by transmitting it to the planetary brain, humanity on the physical plane, where it is materialised .
- On a planetary scale, the enunciation of the Great Invocation aligns the planetary soul, mind and brain, through the linking of the Mind of God, the Heart of God and the Will of God through its agents, the planetary brain cells, Humanity, who transmits it the rest of the planetary body, the three other kingdoms.

The use of the Great Invocation anchors higher energies in the dense body of the Logos

a great deal of the resultant effectiveness is due to the fact that humanity is using this mantram in steadily increasing numbers, and this—combined with its scientific use by the Hierarchy—is very fruitful in results.....

due to the effort of countless thousands of men and women everywhere,

energies hitherto unable to penetrate deeper into substance than the hierarchical substance and the levels of the higher mental plane

can now, for the first time, be successfully anchored on dense physical levels or at least upon etheric levels.

This is a fact and is far more important than you are perhaps able to appreciate. EXH659

Analogy: water crystal

When the surface soil is highly compacted and dense, it becomes non porous, it doesn't soak up water and doesn't allow the rain to percolate, then infiltration of water into the soil is poor and rainwater is lost as runoff.

What does a water crystal do?

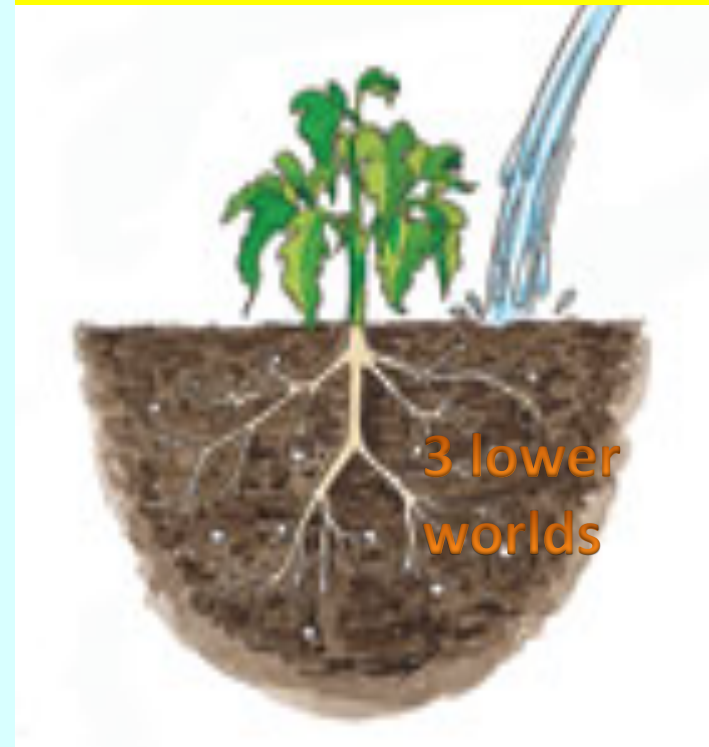

A water crystal has the ability to absorb and retain water and swell to many times its original volume.

Humanity unresponsive to downpour of Buddhi from the higher worlds

Just like poor soil is unable to absorb water, so too Hierarchical energies were unable to penetrate & be absorbed successfully in the 3 lower worlds

Buddhic plane & higher mental plane

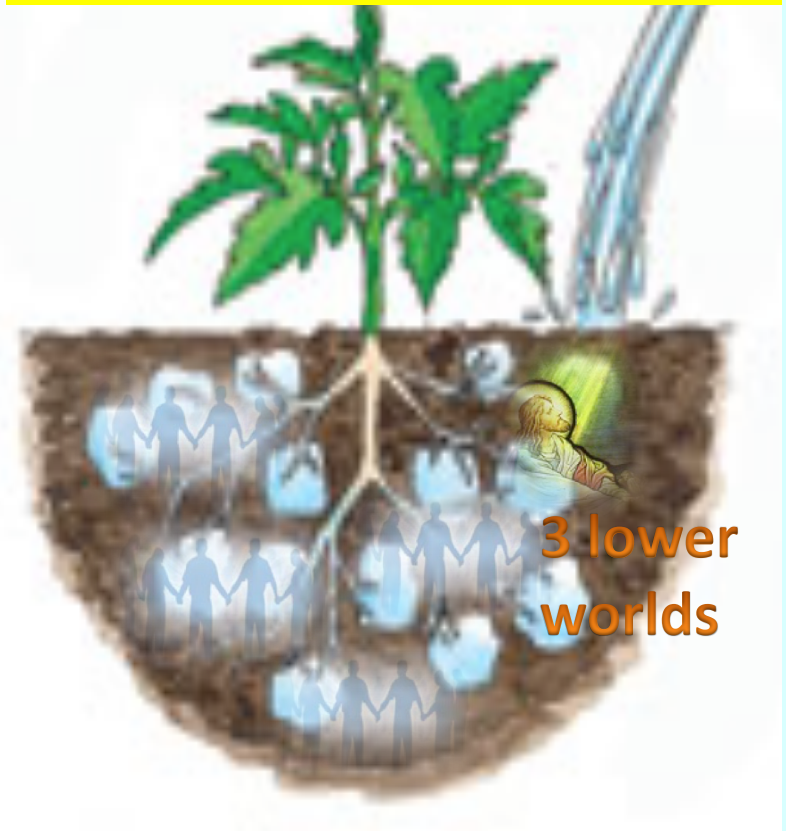

In the garden of Gethsemane, Christ made contact with the Spirit of Peace and extra Planetary forces .
He became a 'water crystal" capable of 'nourishing' the soil/humanity from within

Effects of the *sound* of the mantric rhythm of the Great Invocation

Due to the effort of countless thousands of men and women everywhere, energies hitherto unable to penetrate deeper into substance than the hierarchical substance and the levels of the higher mental plane can now, for the first time, be successfully anchored on dense physical levels or at least upon etheric levels. EXH659

Buddhic plane & higher mental plane

Just as water crystals absorb water, then release it into the soil, so too the sound of the Great Invocation, said by millions of people, is now able to penetrate deeper into the 3 lower worlds for the 1st time in planetary history.

The recognition, by the group, of me, your teacher and Tibetan brother, and the saying by all of us together [i.e. hierarchy symbolised by D.K. and humanity symbolised by the group] of the Great Invocation.....

produces fusion and releases something from "that which lies above to that which lies below," ... intended to produce the fusion of the objective and subjective worlds, and the consequent emergence of the fifth kingdom in nature. DINAIp57

Why unite with Hierarchy as we say it?

Because

- ***Words of Power*** [like the OM & the Great Invocation] ***are all of second ray origin.***
- ***This is the ray of the manifestation of consciousness.***
- ***They are, therefore, intended for soul use because the soul is the expression of the second aspect of divinity,***
- ***only the soul can really employ these Words and sounds***
- ***thus produce the desired results which are always in line with the divine Plan. EXH145***

Hierarchy, the aggregate of world saviours of souls is the heart chakra of our Logos and

it is a Ray Two Chakra with Christ a Sirian initiate, the embodiment of Cosmic Love, at its very centre/ its Jewel.

Power of the soul makes the Great Invocation effective

- *Words of Power...and the Great Invocation are only effective if used upon the mental plane and with the power of a controlled mind—focussed on their intent and meaning—behind the spoken effort. They then become potent.*
- *When said with the power of the soul as well as with the directed attention of the mind, they automatically become dynamically effective. EXH144*

Brief summary of how to make the Great Invocation effective

- a. It involves dual activity of the true disciple :*
 - i. a significant understanding of the implications and meanings of the words said and of the results to be achieved.*
 - ii. There comes next the sending forth of the words with their hidden potency*
- b. this must be done by you as a soul, using the mind and the brain as agents.*
- a. this has to be a group endeavour and must be carried forward in cooperation with the Hierarchy.*

It involves also the recognition that the soul is one and that there is no such thing as my soul—only our soul. EXH157

Practical steps

How to say it?

“Say the words aloud”

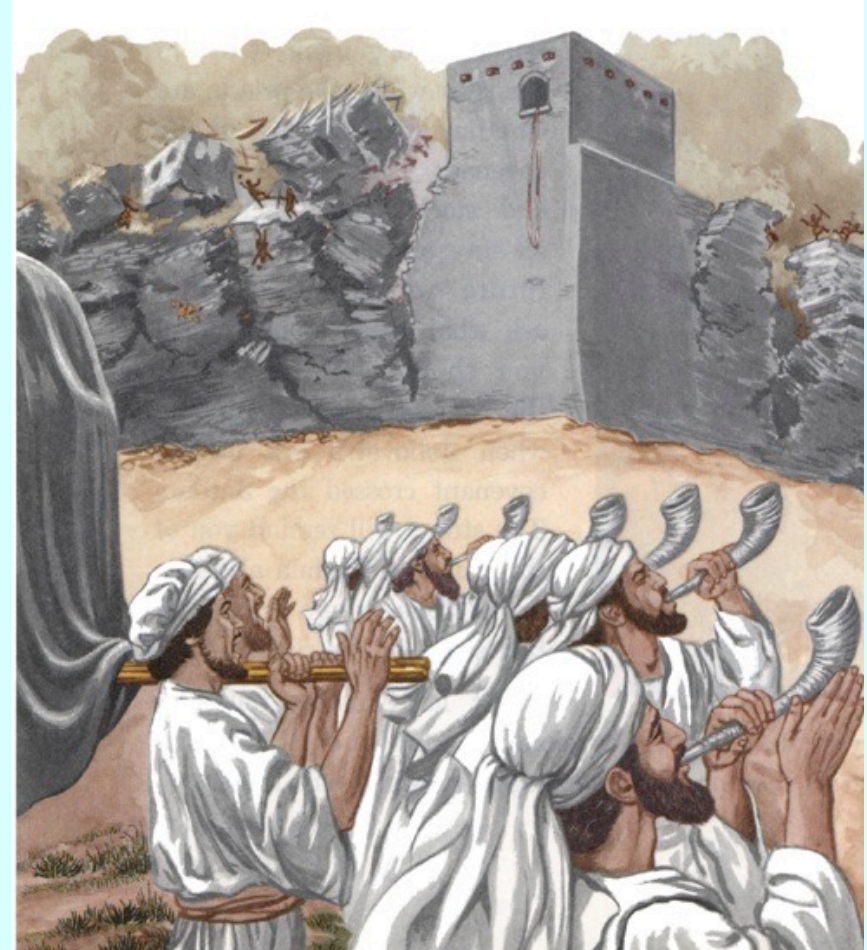

*The Great Invocation to be said
aloud*

Power of sound

In Atlantean days, the walls of Jericho collapsed from the power of sound

You have in the Christian Bible the remnant of a tale which has descended to us from Atlantean days.

In those days the use of sound on physical and emotional levels was understood and practised, being utilised for selfish ends in most of the cases. LOM193

Power of sound known by Pythagoras

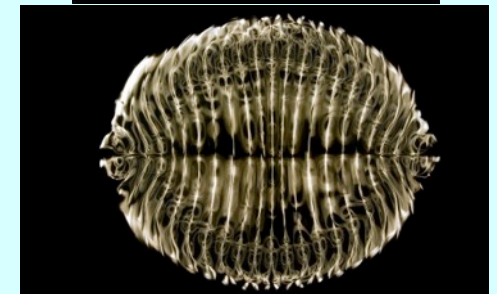

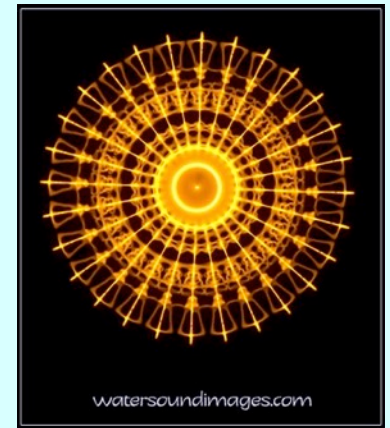

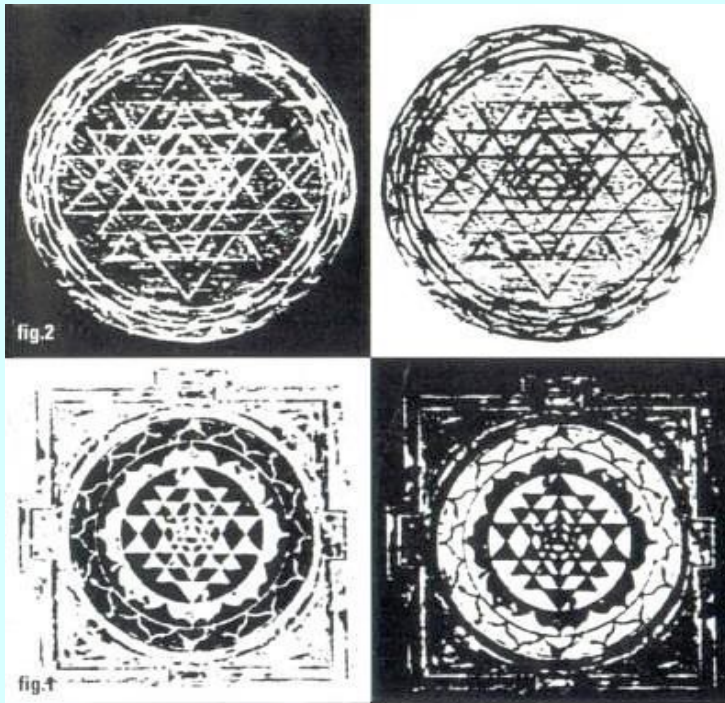

- *That most occult order of Pythagoras at Crotona, and many other of the esoteric schools in Europe and Asia had a rule that all neophytes and probationers were not permitted to speak for two years after entering the school and when they had learned to keep silence for that period, they were given the right to speak, for they had learned a specific reticence.*
- *It might be of value here if students realised that every good speaker is doing a most occult work. TCF979*

Sound and Modern science

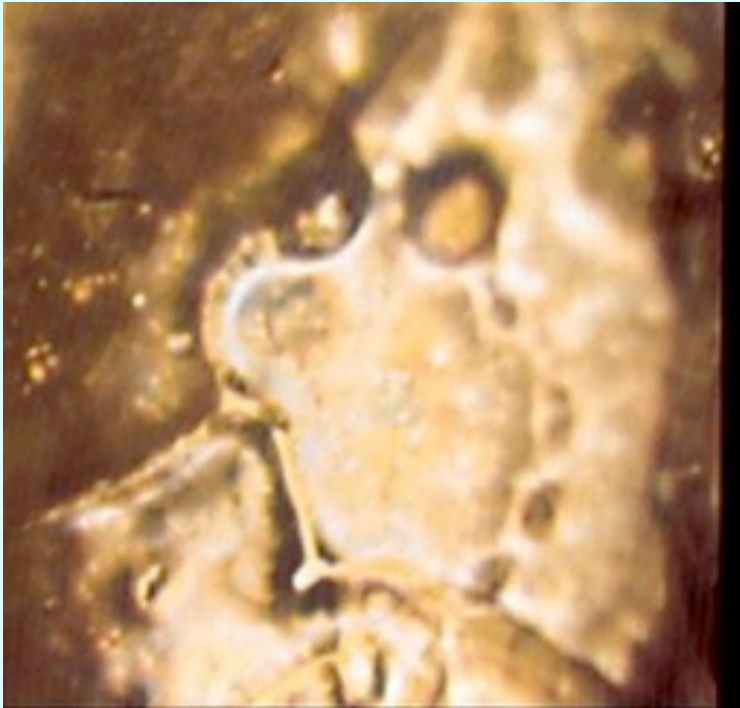

Cymatics: Hans Jenny's experiments

Hans Jenny a Swiss doctor, artist, and researcher, experimented with the effects of sound waves in a medium such as water or sand which he coined "Cymatics" i.e. making sound waves visible.

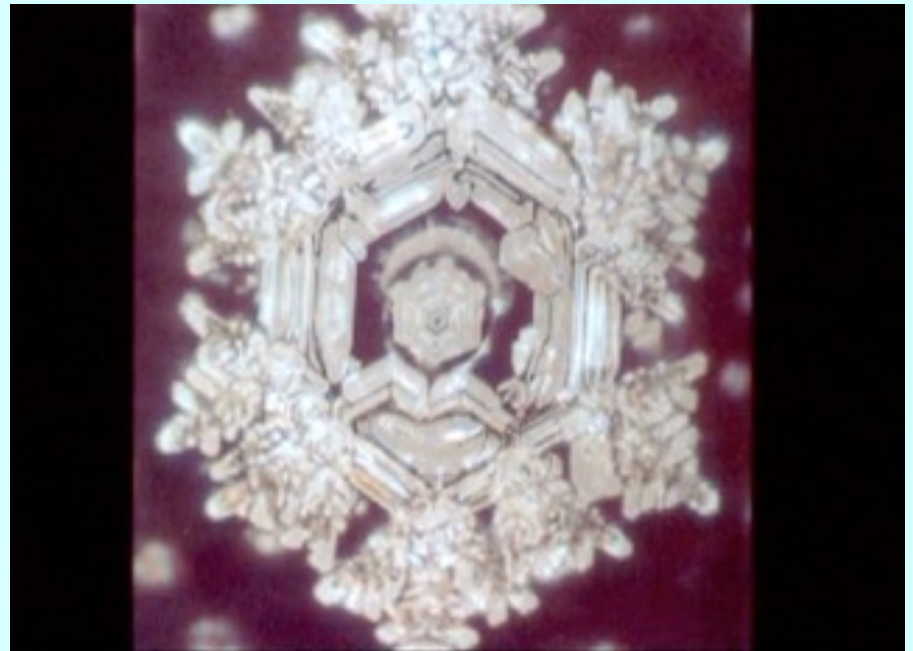

This is the pattern made when the AUM was sounded

Dr Emoto's experiments with exposing water to sound

Shot of polluted water from the Fujiwara Dam, Japan.

This is the same water after a Buddhist monk (Reverend Kato Hoki, chief priest of Jyuhouin Temple) offered a prayer over it for one hour.

Power of Sound according to the Ageless Wisdom

- *God created by the power of sound, and the "music of the spheres" holds all life in being.*
- *The soul on its tiny scale can create "the new man" by the power also of sound, DINAI1700*

Hence D.K. 's injunctions

- *Those who use it must be instructed to say the words aloud, thus making a volume of sound of real potency .
EPII692*

- *Say the new Invocation, sounding the OM after each stanza. DINAIIp558*

Sound the OM on the note G of Love

- *In group formation the effect of the Word is intensified...*
- *It is desirable that the Word be intoned on the same key, or in part harmonic.*
- *When this is done, the vibratory effect is far reaching and certain reactions will occur. LOM 65*

Saying it aloud links the 1st and 3rd aspect of divinity.

- *Those who use it must be instructed to say the words aloud, thus making a volume of sound of real potency, and*
- *they must say it with all the power of their wills behind it.*
- *It is the invocation of the "will to good" that is the objective of the Forces Who can aid at this time.*
- *This realisation is of paramount importance. EPII⁶⁸692*

How to say it? said with meaning and understanding

- *Say the words with all the power of your soul behind them.... with intensity of feeling* EPIIp734
- *they will be potent in their invocative appeal, if said with mental intensity and ardent purpose.* DINAI148

Speaking of the Words of Power re the antahkarana

- *the thought behind the form, the registered feeling anent the words, and the understanding of their significance which are of importance; R&Ip513*
- *if uttered with an understanding of their meaning, they are of terrific potency. R&I515*

Symbolic gesture to accompany the Great Invocation

- *Privately, and in group gatherings the Great Invocation could be said, including the final words:*
- ***"So let it be and help us do our part".***
- ***raise the clasped hands above the head, and then—at the last word—bring them down to the forehead and then to the heart.***
- *The raising of the hands above the head and their return in touching the forehead and the heart are simply symbolic of the lifting of heart and life and consciousness to divinity, and the subsequent and consequent downflow of spiritual life into the personality—the instrument through which the loving soul must work out the expression of good will.*
- *The emphasis is laid upon the heart centre and upon the necessity to hold the forces there (symbolised by the clasped hands resting upon the heart) because the heart is the centre of loving, giving energy, and the distributor of life.*

EPII734

An arresting result if the Great Invocation is used correctly!

The Great Invocation, rightly used ...could reorient the consciousness of humanity,

- stabilise men in spiritual being,***
- disrupt and rebuild the planetary thoughtform which men have created in the past and which has had (and is having) such disastrous and cataclysmic results, and***
- open the door into the New Age, thus ushering in the new and better civilisation.***

This could be done so rapidly, that the needed changes would come about almost overnight the present reign of horror would end and the race of men could settle down to a life of group goodwill, individual harmlessness and right human relations. EXH146

D.K.'s request: Use and distribute

WORLD INVOCATION DAY THE FESTIVAL OF HUMANITY & GOODWILL

- *I ask you, therefore, during the coming years to prepare to use and distribute the Invocation and make it a major endeavour.*
- *I would have you call all the people in every country in the world (whom you are in a position to reach) to a united voicing of the Invocation **on the same day in every land***

R&Ip759

Call to arms

- *I am seeking today all over the world for a group of aspirants and disciples who can and will use the Great Invocation in the right way and who will be willing, consequently, to be trained to do so.*
- *In this way there will be a group upon the physical plane and in everyday life who will be able to combine their efforts with those of the Hierarchy and thus produce an effective use of the Great Invocation with its stupendous results. EXH147*

Conclusion

- The Great Invocation is to be used as a planetary service, no longer as an emotional approach to God,
- but as conscious intelligent co-worker aligned with the Will of God, cooperating consciously with hierarchy fully realising one's part in the implementation of the Plan.

- The Great Invocation will be a powerful tool in inaugurating the new world religion which will be based on the science of invocation and evocation.
