

Polarities

Eva Smith and B.L. Allison

*The **twelve opposites** must
become the **blended six**,
and this is brought about by
the **fusion in consciousness**
of the **polar opposites**.*

(quote from EA Page 346-348).

The Balancing Act

Confronting the Opposites

- Recognizing and confronting the pairs of opposites
 - Personality views them as opposing choice: either/or
 - Good or evil; pain or pleasure; right or wrong; sense or nonsense
 - As a soul, we learn they are an inseparable pair
 - They have a definite purpose and work in tandem
 - Once we've learned to walk the "middle way" between the opposites

Finding Balance

- We begin the necessary work of balancing opposites
 - Finding the happy medium between them
 - Working from neither extreme

Planetary Opposites

- Sun and Moon
 - Day and night
 - Father and Mother

- Venus and Mars
 - Feminine versus masculine
 - Beauty versus brawn

- Jupiter and Saturn
 - Expansion versus limitation
 - Breathing out, breathing in

Sun Sign vs Rising Sign

- When the energies of the sun sign and planets are perfectly directed and adjusted
 - The pairs of opposites are astrally regulated.
- When the energies of the sun and rising signs are blended,
 - the opposites are mentally regulated
- Then a point of crisis emerges

Aries – Libra

Exoterically, Excessive Action

- If the fiery force of **Aries** is improperly controlled, its headstrong impulsiveness unbalances airy **Libra**
 - Boisterous activity upsets delicately wrought arrangements, provoking a slap back at the offender.
- The Arian who demands absolute liberty for himself while disregarding the wishes of others, soon finds that he has rejected all meaningful relationships, and has nothing worth being free for.
 - The Libran compulsion to be conventionally correct can amount to self-betrayal and denial of spontaneity.

Aries - Libra

The warrior must learn from the peace-maker; yet the appeasing for the sake of peace Libran needs to learn to stand on principle like the Arian.

Aries – Libra

Exoterically, Deficient Action

- A deficiency of Arian incentive or of Libran social consciousness again unbalances the scales.
 - If Martian self-assertiveness is lacking, then we might also see an imbalance in the Venusian creativity that could be stifled by convention.
 - Similarly, indifference to the feelings and needs of others can lead to lethargy and non-accomplishment
- The Libran can be very sensitive to slights. If feelings are ruffled, he may refuse to budge.
 - This fear of disapproval accounts for his sitting on the fence when the Arian would kick it down.
- Both signs can swing erratically back and forth between extremes of vivacity and lethargy.

Aries - Libra

vs

Self

Society

**Aries is more about adversarial relationships while
Libra is all about cooperative relationships and partnerships.**

Aries – Libra

Resolution

- When **Aries** and **Libra** are joined in creative synthesis, a person realizes that it is necessary to achieve self-knowledge in order to relate meaningfully to others.
 - Conversely, it is only through entering into relationships that he becomes truly aware of himself.
 - People can function in harmony only because they are separate individuals with unique destinies to fulfill.
 - The Aries/Libra polarity demonstrates that love does not clutch and bind, but is a freely expressed relationship between independent entities.
- Libra manifests the effects of causes that Aries starts.
 - Man is forever meeting himself in the people and circumstances he encounters.

Aries – Libra

On the Higher Spiral

Establishing mental control, then balance and soul control over the personality. Aries represents the resurrection of Spirit from matter; while Libra is the balanced expression of Spirit in matter.

Aries – Libra

Relationship

- Exoteric - For Ordinary Humanity
 - Unstable embryonic beginnings leading to the balancing of the lower psychic nature and its expression through form
 - Embryonic desire for expression consummates in the passion of satisfaction. Lower love controls.
- Esoteric - For Disciples and Initiates
 - The achieved equilibrium, at the point of rest, provides the mental impetus for soul control.
 - Passion is transmuted into love and the initial desire of Aries becomes the full expression of love-wisdom.
 - Desire to manifest becomes the aspiration to be.

Aries – Libra

Points of Cooperation

- Aries and Libra are essentially one sign and govern the pathway to Shamballa
 - Aries rules the crown and Libra the base of the spine
 - When the relationship between them is clear the path of resurrection has been established
 - Kundalini can flow from the base of the spine to the crown
- Aries and Libra are both signs relating to the Law:
 - Aries governs the Law of self-hood
 - Ultimately the Oneself is a law unto Itself.
 - Libra governs the law resulting from social contract
 - They govern the relationship between the self and others

 - R1 and R7 for Aries and R3 for Libra.
- They are similarly related through the planet Uranus
 - Esoteric ruler of Libra; hierarchical ruler of Aries.
- Both signs are associated with rights:
 - Aries the rights of the individual (a free agent)
 - Libra the rights of the individual within society.

Aries – Libra

Points of Cooperation

- Aries initiates the battle of the sexes
 - the relationship between Spirit and Matter
 - Libra in the early days governs uncontrolled human love and passion.
- Both signs are associated with the path:
 - Aries rules the burning ground
 - Libra the noble middle path or the razor-edged path

Libra is a sign of balancing, of careful weighing of values, and of achieving the right equilibrium between the pairs of opposites.

It might be regarded as the sign in which the first real vision of the Path appears and of the goal towards which the disciple must ultimately direct his steps.

This Path is the narrow razor-edged Path which runs between the pairs of opposites and which—if it is to be safely trodden—requires the development of a sense of values and the power to rightly use the balancing, analytical faculty of the mind.

Taurus – Scorpio

Points of Cooperation

- These signs are a bi-polar pair with many similarities
 - Both are fixed signs, considered at this stage of evolution the paramount signs of the Fixed Cross
 - Locked in a dynamic interaction, both signs of struggle
- Both are powerfully related to the **desire nature**
 - Their connection with the astral body is profound
- Both represent the great human drama of **light vs dark**
 - Desire for darkness followed by desire/aspiration for light
- Both of these signs can be considered **power** signs
 - Power often relates to what has been accumulated under the impulse of desire
 - They are financial signs: accumulated value adds to power

The
great
human
drama of
light vs.
dark

Taurus – Scorpio

Points of Cooperation

- They are also a great drama of **attachment/detachment**
 - First attachment to material values (Taurus)
 - Followed by detachment from material (Scorpio)
 - And attachment to spiritual values
 - Engineered by Scorpio and finding its fulfillment in Taurus
- Together they officiate at the reorientation of the desire nature (transforming the human into its divine state)
- Relationship of will-to-desire is also worked out here
 - Vulcan representing the Spiritual Will and Mars representing the desire of the form
 - In this respect Taurus represents the spiritual and Scorpio represents the forces of desire

Taurus – Scorpio

Points of Cooperation

 - Building also occurs at the **throat** center on a higher level and destruction can occur through the word as well
- The 4th ray is distributed through both signs
 - The 4th ray pouring through Taurus and Scorpio relates to our solar system which is of the 4th order
- Additionally the 1st ray comes in Taurus through Vulcan and in Scorpio through Pluto
- Both of these signs are signs of profound warfare
 - Taurus “Let struggle be undismayed”
 - Scorpio “Warrior am I and from the battle I emerge triumphant”

Taurus – Scorpio

Points of Cooperation

- In the early days, the combined forces of Taurus-Scorpio represent extreme Maya and illusion
 - The maya of the material, earthly plane
 - The glamor and illusion of the astral plane
- Both of these signs can also be associated with the buddhic plane (4th Ray)
 - Taurus with the clear, seeing, single eye which brings the unitive vision of the buddhic plane
 - Scorpio with the light of the intuition which resolves all dualities and ends the power of the serpent of illusion

The darkness of the experience in Scorpio becomes illumination in Taurus.

For it must never be forgotten that where the pairs of opposites are concerned they gain and profit from each other, for there is a direct line of force and of contact between the two.

This is a fact which is seldom recognized.

Gemini

The Messenger

The Teacher

Treading of many paths

The immediate environment

Knowledge, concrete

Multi-directional

Changeable perception

Doubting and skeptical

Flexible

Prevarication

Factual

Tangential, beside the point

Interested in the facts

Sagittarius

The Adventurer/Explorer

The Preacher

The Path itself achieves glorification

The distant horizon

Wisdom, abstract

Uni-directional, one-pointed

Steady and clear-eyed

Full of faith and belief

Potentially rigid in its idealism

Truth-telling

Exaggerative

Straight to the point

Interested in the meaning and
significance of the facts

Gemini – Sagittarius

Exoterically, Excessive Action

- Gemini is the wanderer, flitting here and there to experience all things and situations, never landing in one spot too long
 - He seeks and gathers facts with no coordinating theme
 - His efforts to rectify his sense of inadequacy stimulate constant motion as he tries to adapt to every contingency
- Sagittarius is the ponderous philosopher, with strict beliefs and moral standards
 - But may be limited by a conviction of having found the one and only truth, creating religious prejudice and bigotry
 - Mental growth only occurs through the complexity of individual relationships within the overall scheme

Gemini - Sagittarius

Flexibility

Over-extension

The flexible, versatile Gemini breezes through everything, while the Sagittarian gets bogged down overextending himself in many situations.

Gemini – Sagittarius

Exoterically, Deficient Action

- When confidence in the divine order of the universe is lacking, we lose our ability to relate man to God
 - Resulting in a cynic who knows everything, believes nothing
- The Gemini refuses to categorize facts
 - He refrains from declaring where the facts should lead, wanting individuals to make up their own minds
- The Sagittarian's complacent assumption that he is the chosen messenger results in his refusal to face facts
 - He believes education and religion are like stones, to be cemented together to create a sum greater than its parts
 - But those can also become stumbling blocks in the path

Gemini - Sagittarius

Knowledge

Wisdom

Geminis cultivate knowledge (it can be more of a concrete nature); Sagittarians search for true wisdom and explore abstract concepts. Geminis want to be conversant with the facts and understand how they fit together; Sagittarians care more for attitudes and want to understand why the elements fit together.

Gemini – Sagittarius

Resolution

- For a balanced Gemini-Sagittarius axis
 - Knowledge should lead to faith
 - And faith should inspire a quest for increased knowledge
- Problems are not solved by intellect, but are resolved by the progressive expansions of consciousness
 - The wisdom to apply Gemini's accumulated information comes through the Sagittarian's travel, study, meditation
 - And the philosopher can't just sit on the sidelines, he needs motion and a quick mind to join the human race

Gemini – Sagittarius

On the Higher Spiral

Establishing control of the opposites;
resolving duality through one-pointed spiritual action.
Gemini is the messenger and teacher,
Sagittarius is full of faith and is the preacher

Gemini – Sagittarius

Relationship

- **Exoteric - For Ordinary Humanity**
 - Fluid interplay and instability leads to personality focus and determination. The man is one-pointedly devoted to personality achievement. The threefold lower nature, synthesized and directed controls all activity.
- **Esoteric - For Disciples and Initiates**
 - The result of this related pair of opposites is that there is one-pointed soul effort, spiritually directed activity and a demonstrated readiness for initiation. There is the waning of the power of form and the waxing of the life of the soul.

Gemini – Sagittarius

Points of Cooperation

- Both are highly **mental** signs
- Very active at the time of individualization
 - Both have to do with bringing intelligence to the earth
 - Both share an Earth rulership and relationship to Ray 3
 - Earth ruler - Sagittarius esoterically and Gemini hierarchically
- Both signs of great activity and changing environment
 - There will be more scatter in the movement of Gemini
 - More one-pointed purposefulness in Sagittarius
- Both are active in movement from intellect to intuition
 - Gemini is associated with the intellect and intuition
 - Sagittarius almost always with the intuition and higher mind
 - Together they form the energy which creates the antahkarana bridge between lower mind and higher mind

“The mind is not a vessel to be filled,
but a fire to be kindled.” Plutarch

Gemini – Sagittarius

Points of Cooperation

- Both are closely connected with the throat center and with expressing points of view
 - Gemini will be more verbal and filled with variety
 - Sagittarius will be more impassioned and philosophical
 - The throat center is an important means of expression for both and related to the expression of intelligence
- Both also closely related to the ajna center
 - Gemini for its dualism, as the ajna center is dual
 - Sagittarius for the power of unification for the ajna center is a major directing and integrating center
 - once dualism has been resolved

Gemini – Sagittarius

Points of Cooperation

- Both signs attempt to achieve mental perspective through wide exposure
 - Gemini masters the details of the big picture and
 - Sagittarius the major themes
- Both greatly value **freedom** of mobility
 - Suffering in any type of confined, overly repetitive situation
- Both signs are known for their keenness of **vision**
 - There is a certain liveliness to be found in their eyes
- Both share a rather buoyant sense of humor
 - Generally are known for their positive attitudes
- Both are mutable signs
 - Related to the intelligence of the Christ aspect for the soul

Gemini is sometimes called the "constellation of the resolution of duality into a fluid synthesis".

It governs all the pairs of opposites, preserving the magnetic interplay between them, keeping them fluid in their relations in order eventually to facilitate their transmutation into unity.

For the two must finally become the One. The twelve opposites must become the blended six, and this is brought about by the fusion in consciousness of the polar opposites.

To the initiate whose intuition is functioning they constitute but six great potencies, because he has achieved "the freedom of the two" as it is sometimes called.

**A MIND THAT IS STRETCHED

DIMENSIONS.**

Liberation, release from incarnation

Struggle between soul and
personality is ended in Capricorn

Independence and detachment

Non-emotional, hard, assertive

The Future to be achieved
through initiation

Cancer – Capricorn

Exoterically, Excessive Action

- Cancerians, like water, spread themselves thin
 - Mothering/nurturing energy that can tend to give too much
 - It is a restless sign (R3), and natives can move often
- Capricornians, like earth, concentrate their forces
 - Father/disciplinary energy, can tend to restrict too much
 - It is a stable, hard working sign
 - Able to endure hardships to do his duty
- The living, growing organisms born in Cancer harden into the organizations of Capricorn

The Moon and Cancer promote growth from within, while Saturn and Capricorn enforce external limitations

Cancer – Capricorn

Exoterically, Deficient Action

- Parenting styles can inhibit the behavior of children
 - A child who grows up with insecurity compensates by having no—or unrealistic—standards
 - A child growing up with a strict disciplinarian can rebel and show little initiative
- In Cancer a person builds a home and a personality
- In Capricorn he continues to live in that home, no matter how deficient it's structure has become

Cancer - Capricorn

Highly Sensitive Person

**Responsible,
Assertive Person**

The warm, soft, receptive sensitive person versus the responsible, non-emotional, hard and assertive person

Cancer – Capricorn

Resolution

- The purpose of authority is to protect, and firm structures grow out of true caring
 - Some measure of security, nurturing, and discipline in the early years instills a basic sense of order at the core
 - They “feel in their bones” the rightness of things
- This axis represents the womb (Cancer) of time (Capricorn)

Cancer – Capricorn

On the Higher Spiral

Honing and nurturing the sensitivity and intuition of the soul in preparation for initiation. Matter is spirit at its lowest point.....spirit is matter at its highest.

Cancer – Capricorn

Relationship

- **Exoteric - For Ordinary Humanity**

- The urge to incarnate leads to the densest incarnation and immersion in form. The pull of form life and the processes of concretization control. The man arrives after many incarnations at a point of crystallization.

- **Esoteric - For Disciples and Initiates**

- The initiate now chooses to incarnate and passes freely and at will through both doors. The pull of matter is superseded by the free choice of the soul. Form life becomes a conscious method of expression for service.

Cancer – Capricorn

Points of Cooperation

- Both are Cardinal signs, related to great initiatory movements in the early days of evolution
 - And great movements of release in later evolution.
- Rays distributed are similar
 - Cancer - 3rd and 7th Rays
 - Capricorn - 3rd and 7th Rays and 1st
- Two great parental signs of the zodiac
 - Cancer is maternal and Capricorn paternal; yet both share a great tendency towards parental caution / control
- There is a keen respect for the form in both cases.
 - They solidify and stabilize the form as a housing for the developing spirit.

Cancer – Capricorn

Points of Cooperation

- Both are associated with the birth and death process.
 - Both are signs of life: Cancer, life upon the physical plane
 - Capricorn, life within the higher dimensions.
 - Both are signs of death: Cancer, seen as the death of the higher consciousness due to incarnation, immersion into matter.
 - Capricorn, death of the physical form through crystallization
 - Or discipline liberating the consciousness into higher spheres.
- Both have to do with Karma,
 - Hereditary karma relating specifically to Cancer/Moon
 - Law of Karma and retribution being directly related to law enforcement, Saturn/Capricorn

Cancer – Capricorn

Points of Cooperation

- Just as the Sun and Moon must wed for the process of evolution to be complete
 - Capricorn and the Sun (masculine), and Cancer and the Moon (feminine) must likewise form a united pair
- From one point of view they represent
 - The Crown center (Capricorn), paternal energy
 - And the Base of the Spine (Cancer), where the energy is deeply maternal
- The great drama of the interaction between spirit and matter is governed by the inter-action of these 2 signs

Capricorn and the Sun (masculine), and Cancer and the Moon (feminine) must form a united pair

Cancer – Capricorn

Points of Cooperation

- Both are signs of control and both contain power.
- They provide the power of manifestation
 - Cancer at this time being the pre-eminent conduit of Ray 3
 - Capricorn being the conduit of Ray 7
 - Although both share both Rays, and together supervise the embodiment of spirit and manifestation of Ego in form
- From another point of view, these signs represent the forces of obstruction making incarnation difficult
 - Great lunar forces (Moon/Cancer) captivate spirit in form
 - The laws of matter (Saturn/Capricorn) also prove obstructive

In time and space the controlling factor and determining condition is the sensitivity of the incarnated soul to form life, leading to incarnation through the door of Cancer, or to soul life, leading to initiation through the door of Capricorn.

Leo-Aquarius ~ Cultivating a Sense of Wholeness and Group Purpose

Creating new ways to transform self-consciousness into group consciousness

Leo and Aquarius are part of the Fixed Cross
Leo Stabilizes Action – Aquarius Stabilizes Relationships

Leo		Aquarius
Rays 1, 5 – Fixed Fire		Ray 5 – Fixed Air
Ruler: Sun Rays 1,2	Exoteric	Ruler: Uranus R7
Ruler: Sun Rays 1,2	Esoteric	Ruler: Jupiter Ray 2
<i>I am that, and that I am.</i>	Key Phrase	<i>Waters of Life am I, poured forth for thirsty humanity (men).</i>

Leo.—The Light of the Soul. A reflected point of light logoic, or divine. The light diffused in Cancer focusses and reveals eventually a point.

Aquarius.—The Light that shines on Earth, across the sea. This is the light which ever shines within the dark and cleansing with its healing rays that which must be purified until the dark has gone.

Leo	Aquarius
<p>Generous and warm-hearted, creative, able to lead or direct, integrity, self-awareness, confidence, self-assured, generous, dramatic, optimistic, proud, dignified, romantic</p>	<p>Strengths</p> <p>Friendly and outgoing; humanitarian, original, inventive independent, intellectual, serving for the benefit of all, innovative, humane, progressive, tolerant, unique, scientific, logical, intellectual, right sharing, original, freedom-loving, altruistic</p>
<p>Pompous and patronizing, bossy, intolerant, misuse of power, overly competitive, vain, domineering, extravagant, arrogant, childish, status conscious, overbearing, cruel, boastful, pretentious, autocratic</p>	<p>Weaknesses</p> <p>Contrary, unpredictable, unemotional, temperamental, bored by detail, too fixed in opinions, rebellious, excessive extroversion, cold/alooof, emotionally superficial, eccentric</p>

LEO

Leo — the glyph itself can perhaps be seen as an emergence out of Cancer, out of mass consciousness to self-consciousness.

AQUARIUS

Aquarius — The task in Aquarius is to build community and develop group life and spirit; to champion humanitarian causes; to demonstrate fellowship and Brotherhood. To wake up to the universality of Spirit and unity of all beings.

The house with Leo on the cusp is where you will be challenged to "shine" and take the lead; where you need to demonstrate courage and heart; where you express your royalty and individuality, method of self-expression and basic approach to life.

The house with Aquarius on the cusp is where you will be challenged to be progressive or seek alternative methods; where you need to awaken or be awakened; where your group resides.

Leo Rules **the 5th House**

Exoteric – personal creative will, creative activities, romance, love affairs, children, hobbies, favorite activities.

Esoteric – expression of the spiritual will, actualization of the higher self, will expressing as love, the soul as parent, the will to serve.

Aquarius Rules **the 11th House**

Exoteric – friends, hopes and wishes, organizations and clubs, political activities.

Esoteric – members of your group of co-workers, spiritual visions and aspirations, the New Group of World Servers, service to Humanity.

Leo

The King of Kings
Isolated Unity
The Kingdom
Monarchy; aristocracy
The Tyrant; domination
Centralization, the individual
Individual consciousness
The one, self-service
The Lover; passion
Evolution
Synthesis of Being
The heart
Individual creativity

Aquarius

The Ashram of the King of Kings
Unity in Diversity
Utopia
Democracy, meritocracy
The Revolutionary; suffrage
Decentralization, the group
Group consciousness
The many, group service
The Friend; dispassion
Liberation
Synthesis of Diversity
The circulatory system
Group creativity

Leo – Aquarius

Exoterically, Excessive Action

- When Leo's desire to shine is ego-based, the negative side of Uranus manifests through deviant behavior
 - The egocentricity and eccentricity often work together
- The coming Aquarian Age should favor democracy, but Leo dictatorships can hide behind facsimiles of democracy
 - The more they insist that individuals should surrender their prerogatives, the more they demand for themselves
- Instead of Aquarian humanitarian ideals, science and resources are exploited to wage war and dominate people
- Eventually the excesses of power-mad dictators provoke the revolutionary side of Aquarius
 - And in the uneasy balance between freedom and regimentation a new equilibrium is established

Leo - Aquarius

THINK OUTSIDE THE BOX

Individual creativity versus dynamic and unconventional creativity

Leo – Aquarius

Exoterically, Deficient Action

- Leo's power can operate sub-consciously and hide a domineering attitude
 - The undeveloped Leo might fail to see (or not care) how oppressive he comes across to others
 - He can see outcry as unappreciation for his efforts
- Aquarians realize that self must be sacrificed for the sake of the group
 - They can appear impersonal or superficial, yet the submerged ego may assert itself in subtle ways
 - Individuals must become self-reliant before developing global consciousness, or their work will be futilely dispersed and ineffective

Leo - Aquarius

**PERSONAL
PROPERTY**

Centralization, the individual versus decentralization, the group

Leo – Aquarius

Resolution

- Aquarius reconstructs society with the ideal of equal rights and liberties for all
 - A real democracy of freely-operating citizens, each illumined by the light of consciousness
 - Not part of the masses easily manipulated by politicians
- Leo and Aquarius must inspire statesmen who are concerned with broad principles, working for the group
 - The Leo artist develops a universal outlook through intense concentration on the forms he shapes
 - The Aquarian scientist develops keen insight into the nature of objects and the formative laws of the universe
- The liberty men seek must be won through the intuitive mind; desire for freedom must come from the heart.
 - Only when mind and heart come together can man achieve his full creative power.

Leo – Aquarius

On the Higher Spiral

On the higher spiral: self-mastery leading to group awareness, service

Leo – Aquarius

Relationship

- **Exoteric - For Ordinary Humanity**
 - The individual seeks full expression and arrives finally at the point where he uses his environment for purely individual ends. He dominates his fellowmen for entirely personality objectives. The isolated individual becomes the group ruler or dictator.
- **Esoteric - For Disciples and Initiates**
 - Personality interests as an expression of the individual are submerged in the good of the whole. Selfish individual man becomes the world server. Heights of noted service are then reached in both signs.

Leo – Aquarius

Points of Cooperation

- These two signs are in essence, one sign.
 - They are the signs that rule the coming Aquarian age
 - Where the relationship between the individual and the group must be adjusted.
- Both are great signs of **intellect**
 - Carrying the 5th Ray; relating to the scientific spirit.
- They are signs of great vitality and the solar prana
 - Ruled by the Sun and Leo,
 - Animating the etheric body ruled by Aquarius.
- Leo distributes Ray 1; Aquarius does not
 - Yet Aquarius is just as much associated with the powerful Great Bear, so a powerful 1st Ray association

Leo – Aquarius

Points of Cooperation

- Of the air signs, Aquarius is the one most associated with the 1st aspect of Divinity.
 - Adding great willfulness to Aquarius (as in Leo)
 - Rulership by Uranus supports a strong Aquarius will
 - As does the Moon veiling Vulcan as hierarchical ruler
- The 5th Ray learns to master energy.
 - Leo and the Sun are a source of energies for our solar system, a great reservoir of vitality
 - Aquarius with its 5th Ray rulership has always been considered the sign where multiple, new energies are disclosed for new applications by humanity.
 - The scientific task is to discover unsuspected energy sources and to reveal them.

Leo – Aquarius

Points of Cooperation

- Leo is commonly associated with solar fire (1st aspect)
 - Given its 1st and 5th Ray rulerships and its ultimate rulership by Uranus (hierarchically considered)
 - This associates both Leo and Aquarius with Uranus, the major sign of electrical phenomena and electric fire.
- Electric fire is the fire of the will
 - So both of these signs are blended together in what might be called the spiritual electrification of man.
 - The Sun and Leo represent the seed of spirit which is for humanity, the home of electric fire
 - Aquarius represents the distribution of that electricity to all areas of the multi-faceted aura

Leo - Aquarius
are signs of
electric fire (fire
of will) and
electrical
phenomena

They blend
together in
the spiritual
electrification of
man

Leo – Aquarius

Points of Cooperation

- Aquarius and Leo are involved in the great problem of the one and the many (unity and variety).
 - The only true wisdom is to realize that the one is the many and the many are the one; in the Aquarian age, we'll see a grand display of multiplicity.
 - Life is simple now by comparison, for under the influence of Aquarius the many, many dimensions of human living and even planetary living will be revealed
- However, the essential sense of self-hood, the sense of unification, will also grow strong
 - Because of the sense of identity at all levels
 - Not only will we have the group, but powerful individuals at the center of groups, inspiring/vitalizing the groups
 - With the sense of the absolute unity at the heart of it all

Leo – Aquarius

Points of Cooperation

- Neptune is also powerful here, esoteric ruler of Leo
 - And a hierarchical ruler of Aquarius (veiled by the Moon)
- Essentially these are signs with great heart.
 - Love and will can be beautifully blended here
 - Jupiter is also associated with both (Sun and Jupiter both Ray 2 planets; and Jupiter as esoteric ruler of Aquarius)
 - If the 1st initiation is taken largely under the sign Leo which rules the opening of the heart center, it is the Aquarian group that can stimulate people to take this initiation.
 - In this most amazing, scientific age to come, it is the heart of humanity which must be stimulated.
- Aquarius is the sign of service, related to the world server pouring forth energy for the benefit of all.
 - Yet both of these are signs of great expression, of extroversion, outgoingness, and service.

In these signs—Cancer, Leo, Sagittarius, Capricorn, Aquarius, and Pisces—you have the six signs which constitute the six pointed star of the human or fourth Creative Hierarchy

Cancer and Pisces marking the two extremes. The Crab symbolizes imprisonment (the hard shell and the rocks under which the Crab ever takes shelter), and the Fish signifies freedom.

In between—in Leo, Sagittarius, Capricorn and Aquarius—come the four stages of personality development, struggle with the pairs of opposites, and finally release into full spiritual service.

Leo, individual consciousness (I know); Aquarius, group consciousness (I go forth).

I am the only one who can make
America truly great again!

Virgo-Pisces ~ Cultivating the Influence of the Hidden Christ

Creating new ways to release the compassionate heart.

Virgo and Pisces are part of the Mutable Cross
Virgo Adjusts Accomplishments – Pisces Adjusts Feelings

Virgo		Pisces
Rays 2,6 – Mutable Earth		Rays 2,6 – Mutable Water
Ruler: Mercury Ray 4	Exoteric	Ruler: Jupiter Ray 2 (Neptune, Ray 6)
Ruler: Moon Ray 4 (veils Vulcan, Neptune)	Esoteric	Ruler: Pluto Ray 1
<i>I am the mother and the child; I God, I matter am.</i>	Key Phrase	<i>I leave the Father's house, and turning back I save.</i>

Virgo.—The blended dual Light. Two lights are seen—bright and strong, the light of form; one faint and dim, the light of God. This light is distinguished by a waxing of one and the waning of the other. It differs from the light in Gemini.

Pisces—The Light of the World. This is the light, revealing the light of life itself. It ends for ever the darkness of matter.

Virgo	Pisces
<p>Modest and shy, meticulous and industrious, practical and diligent, analytical and discriminating, hard worker, detailed oriented, fact-finding, exacting, clean, humane, seeks perfection, studious</p>	<p>Imagination, sensitivity, compassion, kindness, selflessness, sacrifice, inclusive, healing, devotion, idealism, gentleness, charitable, creative, sympathetic, emotional, intuitive, introspective, musical, artistic, dreamy, sensitivity to impression, poetic, power to serve, courageous, patient</p>
<p>Fussy, worrier, overly-critical and too harsh, perfectionist, too analytical, petty, cold, critical, melancholy, a worrywart, fears disease and poverty, picky, sloppy, skeptical</p>	<p>Escapism, idealism, fanaticism, victim-consciousness, hypersensitivity, easily overwhelmed, weak-willed, vague, indolent, impractical, dreaminess, sentimental, often feels misunderstood, self- denial, emotionally inhibited, melancholy, procrastination</p>

VIRGO

Virgo — is here to produce form and to nurture the life within form; to quietly serve and attend to the details of life and service.

PISCES

Pisces — the goal is to detach from the non-essentials of life and serve humanity with great compassion, tolerance and understanding. Pisces serves humanity selflessly and tirelessly; is gentle, tender and kind.

The house with Virgo on the cusp is where you are to work and serve dutifully; where you are to be “the hands of God at work”; where you are to demonstrate skill in action; where you are to devote time and energy.

The house with Pisces on the cusp is where you will be challenged to discern between illumination and illusion; what you need to transcend; where you need to be empowered and less of a victim.

Virgo Rules **the 6th House**

Exoteric – service, servants, health and well-being, employees, work, pets, techniques and skills.

Esoteric – Service, servers, synthesis of the lower vehicles, wholeness, integration, those who are served, service to the animal kingdom, service to humanity, the knowledge to build the Antahkarana.

Pisces Rules **the 12th House**

Exoteric – hidden enemies, self-undoing, prisons and institutions, secret activities, hidden resources, crucifixion of the personality.

Esoteric – unredeemed past karma, inversion of the soul force, bondage to the personality, selfless service to humanity, awareness of past lives, service to the world savior.

Virgo

God-imminent

The Loyal Servant

Mental Mediums

The Analyst, reasoner

The Thinker, rationalist

The Realist, the critic

Analysis

Mental, the critical mind

The tangible; rational

Creating lines of distinction

Discriminative, definite

Self-disciplining

Strong work orientation

Pisces

God-transcendent

The Loyal Savior

Trance and low-grade mediums

The Intuitive, knower

The Believer, mystic

The Fanatic, the dreamer

Synthesis

Emotional, the compassionate heart

The intangible; irrational

Dissolving lines of distinction

Confused, indefinite

Self-indulgent

Frequent escapism and laziness

Virgo – Pisces

Exoterically, Excessive Action

- Pisces' profound astrality - escapism and fantasy are the points of least resistance
 - They need Virgo's discrimination and discernment.
- Pisces' astral sensitivity stimulates human attributes
 - Empathy, sympathy, kindness, consideration, psychic awareness and love
 - Working through the emotional nature
 - The shadow side expresses through fear, hatred
 - Without a stabilizing force it results in destructive behavior
 - Delusions, or dependencies on drugs or alcohol

The rational thinker, or the idealistic believer and mystic

Virgo – Pisces

Exoterically, Deficient Action

- **Virgo is labor** and **Pisces is love**
 - Lack of a willingness to serve can signify a lack of sympathy or understanding
 - Through small favors we learn to care for people
- Virgo builds foundations for the Piscean air castles
- Virgo stands for hygiene, and Pisces irrationality can lead to undermined health
 - One can be seen as overly fastidious while the other hides behind self-defeating behavior
- Virgo works objectively while Pisces is subjective and retreats from the grossness of the outer world.

Virgo – Pisces

Exoterically, Deficient Action

- Pisces is a water sign of high emotional sensitivity – the “watery nature” ruled by god of the waters, Neptune.
- Virgo’s lower mind can produce criticism and separateness, which can then sabotage the hyper-sensitive Piscean.
 - The result can be a Piscean dissolution of relationships
 - Picking a Piscean person to pieces can reduce the person to ill health, neurosis, and antisocial behavior
- The insecurity of the undeveloped Virgoan can create a multitude of small worries, often creating anxiety

Virgo - Pisces

Discriminating

Fanatic

The reasoner and realist versus the irrational or dreamer

Virgo – Pisces

Resolution

- **Virgo is service; Pisces is salvation**
 - Redemption is gained by both good works and faith
 - The Virgoan seeks a place where his training can be used; the Piscean devotes himself to big issues
- **Virgo is the Mother; Pisces the Savior**
 - Virgo represents the harvest and cultivating food
 - Pisces represents the body sacrificed for the soul
 - Denoting the final release of the spirit rising from the outworn body.

Virgo – Pisces

On the Higher Spiral

God Imminent

God Transcendent

Nurturing the Christ within the heart and bringing it into conscious manifestation.

Virgo – Pisces

Relationship

- **Exoteric - For Ordinary Humanity**
 - Virgin matter attracts the soul and the divine Mother becomes more important than the son. The life of the soul is hidden.
- **Esoteric - For Disciples and Initiates**
 - The form reveals and releases the indwelling soul. The Saviour of the world appears and nurtures the hidden souls in Virgo.

Virgo – Pisces

Relationship

- Nurturing vs. imagining
 - Virgo has expressions of nurturing and healing, known for its down to earth practicality and meticulous detail orientation.
 - In this respect, the Virgin Mother brings to birth what Pisces conceives in its imagination, visionary or dream experiences

Virgo – Pisces

Points of Cooperation

- Both are mutable or common signs; the cross of Christ.
- Identical Rays: R2 of love-wisdom and the R6 of devotion
 - Christ was born of the virgin, Virgo, and became the world saviour, Pisces.
 - Virgo indicates the birth of the Christ and Pisces, the absolute fulfillment of the Christ principle.
 - Virgo represents the incarnation of the second aspect within the third aspect, matter.
 - Pisces, the absolute redemption of the third aspect by the second aspect.

Virgo – Pisces

Points of Cooperation

- As Christ or the soul is the healer, both are healing signs.
 - Both are frequently associated with the medical professions and the 6th and 12th houses
 - Virgo, the pre-eminent sign of health and healing is opposite the flow of the endocrine system of Pisces
- As Christ is the true psychic, psychism is found pronouncedly developed, as well as mediumship
 - Mediumship is more unconscious says the Tibetan in Pisces and more mental or conscious in Virgo.
 - Psychism indicates an extension of the senses and both are associated with sensitivity to the not self.
 - The planet of psychism is Neptune, generalized ruler of Pisces and a veiled ruler esoterically (Moon) of Virgo.

Virgo – Pisces

Points of Cooperation

- Both are signs of fulfillment
 - Indicated by hierarchical ruler Jupiter in Virgo and the orthodox rulership of Pisces by Jupiter.
- They are in a certain sense, consummating signs
 - Virgo consummating the first half of the zodiac and Pisces the second half and the entire zodiac.
- Pisces is also a sign much related to release
 - Early Pisces can be as materialistic as Virgo itself.
 - And these two signs are related to the mother (matter).
 - The evolutionary mantra of each bringing a strong association to matter.
 - Virgo: Let matter reign.
 - Pisces: Go forth into matter.

Virgo – Pisces

Points of Cooperation

- Both signs share an affinity with bondage.
 - Pisces is the preeminent sign of bondage, of handicap, of the subservience of Spirit to matter (of soul to form)
 - Virgo ruling the dense material element and especially that which is brought over from the first Solar system, also carries the theme of bondage.
- Both signs are related to the heart center
 - In Virgo, the birth of the heart occurs
 - In Pisces, salvation through the heart.
 - And this is mediated through the planets Jupiter and Neptune, both associated with the heart.
 - They are equally associated with the solar plexus expressing the sixth Ray.

Both signs
relate to the
Heart Center:
in Virgo the
birth of the
heart occurs,
in Pisces
salvation is
achieved
through the
heart.

Virgo – Pisces

Points of Cooperation

- Both signs are signs of synthesis
 - The glyph of Virgo indicates a material synthesis
 - Pisces draws all things into itself, taking from all signs, so a great and fluid intuitive synthesis is created.
- But the synthesis created in both of these signs is in fact a material synthesis
 - Virgo and Pisces both indicate subjugation to substance
 - The dominance of the material aspect, either through food or drugs or strictly materialistic processes.
 - They can be seen as powerful in relation to the Atlantean civilization which was a matriarchy
 - An astral focus was the norm for Atlanteans

Virgo – Pisces

Points of Cooperation

- Virgo represents a preeminently mental polarization and Pisces an emotional, intuitional polarization
- Again we find service and saviorship in common.
 - Pisces individuals are the great helpers of the zodiac
 - Virgo represents attentive service to practical matters
 - Both have a very strong helping orientation and are characteristic of the helping professions
- There is a quality of humility or self effacement found in both signs.
- Both signs characterize the life of the aspirant/disciple
 - There are many ego defeating disciplines which must be undertaken upon these paths.

In Virgo, the man who was fluid in Pisces begins to focus more intently and to reason and think. The intellect is awakening and instinct—after passing through the emotional stage—is being transmuted into intellect.

The man lives in and experiences in all the signs, but the influences of the Mutable Cross have more effect on him until he becomes aware of the dualities of the Fixed Cross.

Finally the energies of the Cardinal Cross emerge and the revelation of the Christ consciousness in Virgo is carried forward by the illumined disciple. The great achievement is finished in Pisces and release of the soul from captivity as the final death is undergone.

Illustration of 2 world religious leaders and their compassion, purpose, and underlying energy with a Cancer Ascendant, chart ruler Neptune in Virgo in the 3rd house and Saturn in Pisces in the 9th for both of them.

The planet does not need more successful people. The planet desperately needs more peacemakers, healers, restorers, storytellers, and lovers of all kinds.

— Dalai Lama —

“Rivers do not drink their **own** water;
The trees do not eat their **own** fruit:
The sun does not **shine** to itself
and flowers do not spread their
fragrance for themselves.
Living for others is a rule of nature.
We are all born to **help** each other.
No matter how difficult it is ...
Life is good when you are **happy**;
but much **better** when others
are happy because of **you.**”

(Pope Francis)

Polarities

- When the energies of the **sun sign** and **planets** are perfectly directed and adjusted, the opposites are astrally regulated

- When the energies of the **sun** and **rising signs** are **blended**,
 - The opposites are mentally regulated
 - Then another point of crisis emerges

Full Moons

- During a full moon, the sun and the moon are in opposite signs.
 - When we say, there is a full moon in Taurus, in actuality, the sun is in Taurus while the moon is in Scorpio.
- DK tells us at these special times the energies of the sun-moon axis can be contacted with greater facility
 - Enabling Humanity to approach the Hierarchy in a manner not available at other times
 - Allowing NGWS to become more responsive to hierarchical impression

The ***twelve opposites*** must become the ***blended six***, and this is brought about by the ***fusion in consciousness*** of the ***polar opposites***.

To the initiate whose intuition is functioning, they constitute but ***six great potencies***, because he has achieved "the freedom of the two".
