New words and new symbols that will reveal the hidden aspects of deity

- **“Speech is one of the keys which opens the doors of communication between men and subtler beings. It gives the clue to the discovery of those entities who are contacted on the other side of the veil. But only he who has learned to keep silent, and has arrived at the knowledge of the times to speak can pass this veil and make certain esoteric contacts. Magic consists, we are told in the Secret Doctrine, in addressing the Gods in Their own language; therefore, the speech of average man cannot reach Them.**
- **Therefore, those who seek to learn the occult language, those who yearn to become aware of the words which will penetrate to the ears of those who stand on the other side, and those who seek to utilise the formulae and phrases which will give them power over the Builders, have to unlearn their previous use of words and to refrain from ordinary methods of talking. Then the new language will be theirs and the new expressions, words, mantrams and formulas will be entrusted to their care.” (TCF 982)**

128 references to the vortex and funnel

In describing the first esoteric triangle for meditation the disciple must according to the Tibetan create a triangle of force between the 12-petaled lotus, the Ajna center and the heart center in this way: "This is in reality more in the nature of a funnel. of reception than a triangle." (DNA2: 182)

The danger of points of unconnected light

- “The great and cruel maya of the planes of sweet illusion comes into being, draws into its snare the points of unconnected light, and dims their lustre.” (TCF 1273)

Loose grid of squares

This grid is open and vulnerable to the entry of negative and undesirable forces.

By drawing lines of lighted substance diagonally across these open squares evil is sealed from entry.

Perfect health and integration on a planetary, or on an individual level, is the result of uniformity and strength of the entire etheric body.

Tight grid of triangles

This is a simulated grid of an electric field. This sphere has 9,823 points and 29,463 links in its triangle mesh.

It is impervious to outside forces and can only be destroyed by the light within.

Each life that the Personality leads is, at the close, represented by some geometrical figure

- **“Each life that the Personality leads is, at the close, represented by some geometrical figure, some utilisation of the lines of the cube, and their demonstration in a form of some kind. Intricate and uncertain in outline and crude in design are the forms of the earlier lives; definite and clear in outline are the forms built by the average advanced man of this generation. But when he steps upon the Path of Discipleship, the purpose consists in merging all these many lines into one line, and gradually this consummation is achieved. The Master is He Who has blended all the lines of fivefold development first into the three, and then into the one. The six-pointed star becomes the five-pointed star, the cube becomes the triangle, and the triangle becomes the one; whilst the one (at the end of the greater cycle) becomes the point in the circle of manifestation.” (LOM 6)**

Grasping the intricacy of the entire pattern

“Owing to the constant movement everywhere, inherent in the solar system and the zodiac—onward, interior and revolving—some idea can be grasped of the intricacy of the entire pattern. A further aid to the grasping of this essential beauty of coordinated and organised movement and its power to qualify and condition the entire universal pattern can be gained by those students who have studied somewhat the various triangles to be found in the etheric body of man through the inter-relation of the seven centres to which I have referred elsewhere in my various books.” (EA 419)

The 7 Divine Rays

“It should be remembered that—from the angle of the final development of the twelve zodiacal potencies—the twelve opposites must become the blended six, and this is brought about by the fusion in consciousness of the polar opposites...”

The Symbol should be seen in Rapid Revolution

"This, therefore, brings into a close relation four great constellations, each of which has a peculiar relation to the dualities with which man has a definite evolutionary concern. These are expressed in a unique manner for humanity through Aries, Gemini, Virgo, and Scorpio and the following diagram is descriptive of the nature of that relation:

When visualizing these diagrams, the symbol should be seen in rapid revolution. (Italics mine)

2025, The Science of Electricity and the Reappearance of the Christ

The Mysteries which Christ will restore upon His Reappearance

“It is these Mysteries which Christ will restore upon His reappearance, thus reviving the churches in a new form, and restoring the hidden Mystery which they long have lost through their materialism. Masonry has also lost the true livingness it once possessed but, in its forms and rituals, the truth is preserved and can be recovered. This Christ will do. He will also revive these Mysteries in other ways; not all will seek the church or Masonry for the revitalising of their spiritual life. The true Mysteries will also reveal themselves through science and the incentive to search for them there will be given by the Christ. The Mysteries contain, within their formulas and teachings, the key to the science which will unlock the mystery of electricity—the greatest spiritual science and area of divine knowledge in the world, the fringes of which have only just been touched. Only when the Hierarchy is present visibly on Earth and the Mysteries of which the disciples of the Christ are the Custodians are given openly to the world, will the true secret and nature of electrical phenomena be revealed.”

(The Reappearance of the Christ 123-24)

Striation of the mental field

“All through that period it is not safe to tamper with the unknown for only the very strong refined physical body, the controlled stable and equalised emotional body and the properly striated mental body can enter into the subtler planes and literally work with Fohat, for that is what the occult does. Therefore is the emphasis laid by all wise Teachers everywhere on the Path of Purification, which must precede the Path of Illumination. They lay the emphasis on the building in of spiritual faculty before psychic faculty can be safely permitted; they demand service to the race every day throughout the scope of life before a man may be permitted to manipulate the forces of nature, to dominate the elementals, to co-operate with the devas, and to learn the forms and ceremonies, the mantrams and the key-words, that will bring those forces within the circle of manifestation.” (LOM 131)

Love as the interplay between the pairs of opposites

“Love is the great principle of attraction, of desire, of magnetic pull, and (within our solar system) that principle demonstrates as the attraction and the interplay between the pairs of opposites. This interplay provides every needed grade or type of unfoldment for consciousness.” (EP 1 337)

Establishing the rule of the enlightened electrically

“This will break down all barriers of race and all distinctions of color; the essential brotherhood of man will be established. We shall see each other and all forms of divine manifestation as light units of varying degrees of brightness and shall talk and think increasingly in terms of electricity, of voltage, of intensity and of power. The age and status of men, in regard to the ladder of evolution, will be noted and become objectively apparent, the relative capacities of old souls, and young souls will be recognized, thereby re-establishing on earth the rule of the enlightened.” (TWM 335)

Alternating electrical poles

The Electrical and Magnetic fluids that are carried from centre to centre, planet to planet, and man to man.

“It will take more than the most advanced scientist on this planet of ours to truly comprehend the depth of the esoteric paradigm where the great bodies we call suns and stars are living embodiments of great fields of energetic super-consciousness.”

"There is a sphere or line of energy connecting the sun and all planets of the solar system, as sound or light waves may connect two electrical centers of communication, and through this means of communication a conscious elemental force may reach and affect any planet of this system...

The magnetic fluids which constitute the substance of the magnetic pole of any planet, are subject to Will and Mind when directed by the Planetary Spirits or Gods of a solar system. These poles correspond to the Ida, Pingala and Sushumna of the human spinal cord, and the magnetic fluid or energy is carried from centre to centre, planet to planet, man to man, by conscious elementals which alternately clothe and unclothe themselves, as it were as garments of magnetic energy..."

Triangles, Wheels and Vortices overlap and touch
