

As Above - So Below

The turning of the wheels

New ideas inhibited by the concrete mind

- “Knowledge can be expressed in concepts and precepts; wisdom is revealed through ideas against which (very frequently) much mundane knowledge powerfully militates. The concrete mind often inhibits, as you well know, the free flow of ideas intuitively impulsed; it is with this free flow of the new ideas that the initiate is basically concerned, because it is ideas, their right application and interpretation, which determine the future of humanity and of the planetary life.” (DINA 2,280-1)

Ra Echo

As Above - so Below

The turning of the spiritual wheels

- **This next video gives us some key insights into how simple biological functions can be far more remarkable and mysterious than we could have first imagined. We also can see the mind of a scientist - engineer who is just becoming aware of the possibility of higher spiritual influences that may be operating just beyond the outer appearances of things.**

What makes this electro-chemical process happen?

In the pervious video that we just observed the host stated that “there is an electro-chemical force of some kind that makes this all happen” and creates within him a real appreciation and wonder of this whole complex process.

This electro-chemical force that he is referring to is the higher etheric body that gives life and intent to all organisms on the lowest level of the physical plane.

The nature of true religion, the purpose of science and the goal of all education

"The Mysteries will restore colour and music as they essentially are to the world and do it in such a manner that the creative art of today (1940) will be to this new creative art what a child's building of wooden blocks is to a great cathedral such as Durham or Milan. The spiritual Mysteries, when restored, will make real—in a sense incomprehensible to you at present— the nature of true religion, the purpose of science and the goal of all education. These are not what you think today." (R&I vol. 5 333)

What Are Plasma Crystals?

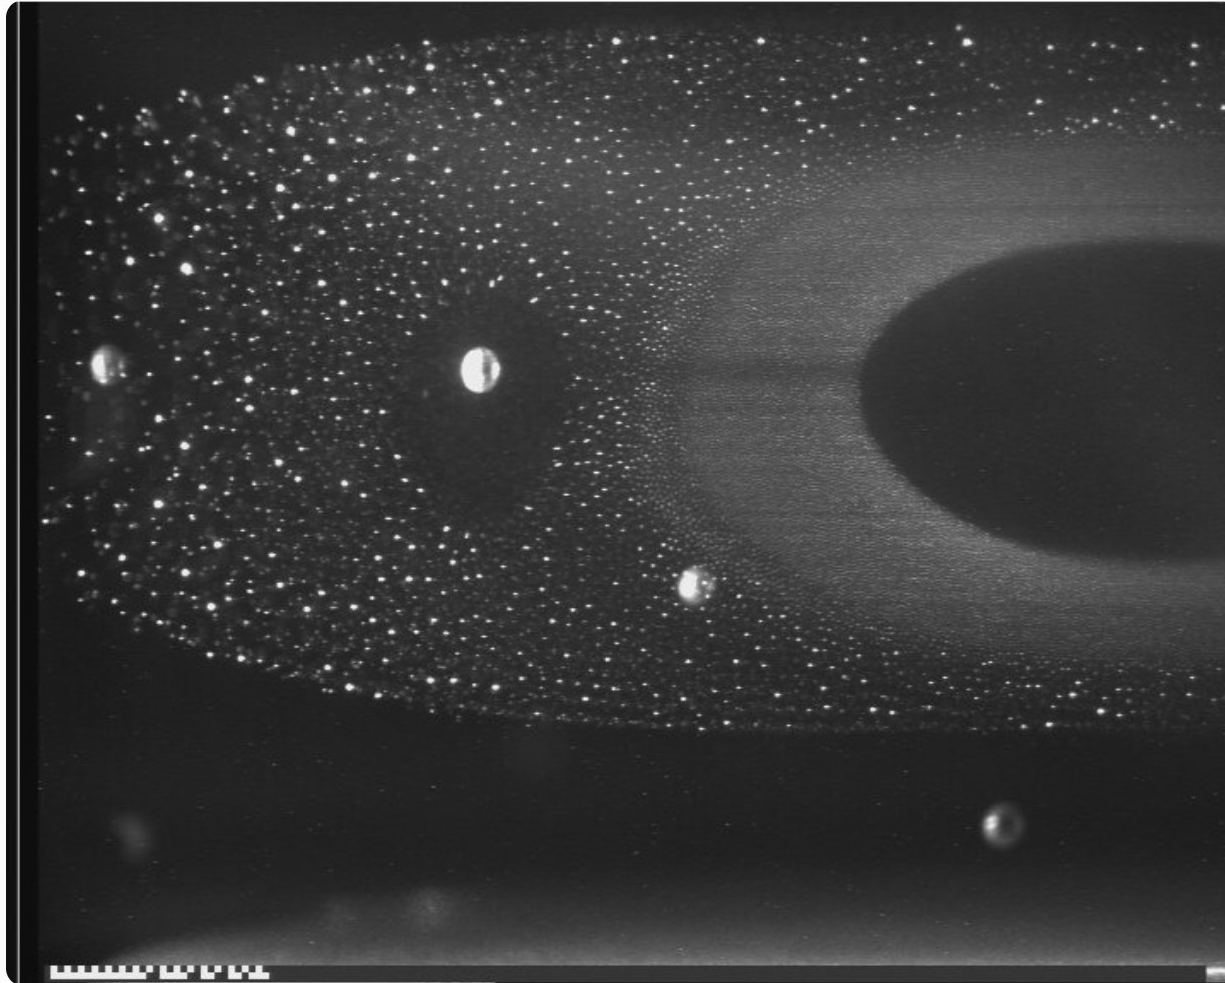

“Plasma is ionized gas with free electrons and ions, typically chaotic and energetic. However, when micron-sized dust particles are introduced into a low-pressure plasma (creating a "dusty plasma"), these particles become electrically charged by interacting with electrons and ions. They then self-organize due to strong electrostatic (Coulomb) forces, forming highly ordered, lattice-like structures that behave like crystals. These are not traditional atomic/molecular crystals (held by chemical bonds) but Coulomb crystals governed by electromagnetic interactions.” (GROK)

Frontiers | Preservation of a Dust Crystal as it Falls in an Afterglow Plasma

Top-down view of a well-formed plasma crystal: hundreds of dust particles arranged in a nearly circular,

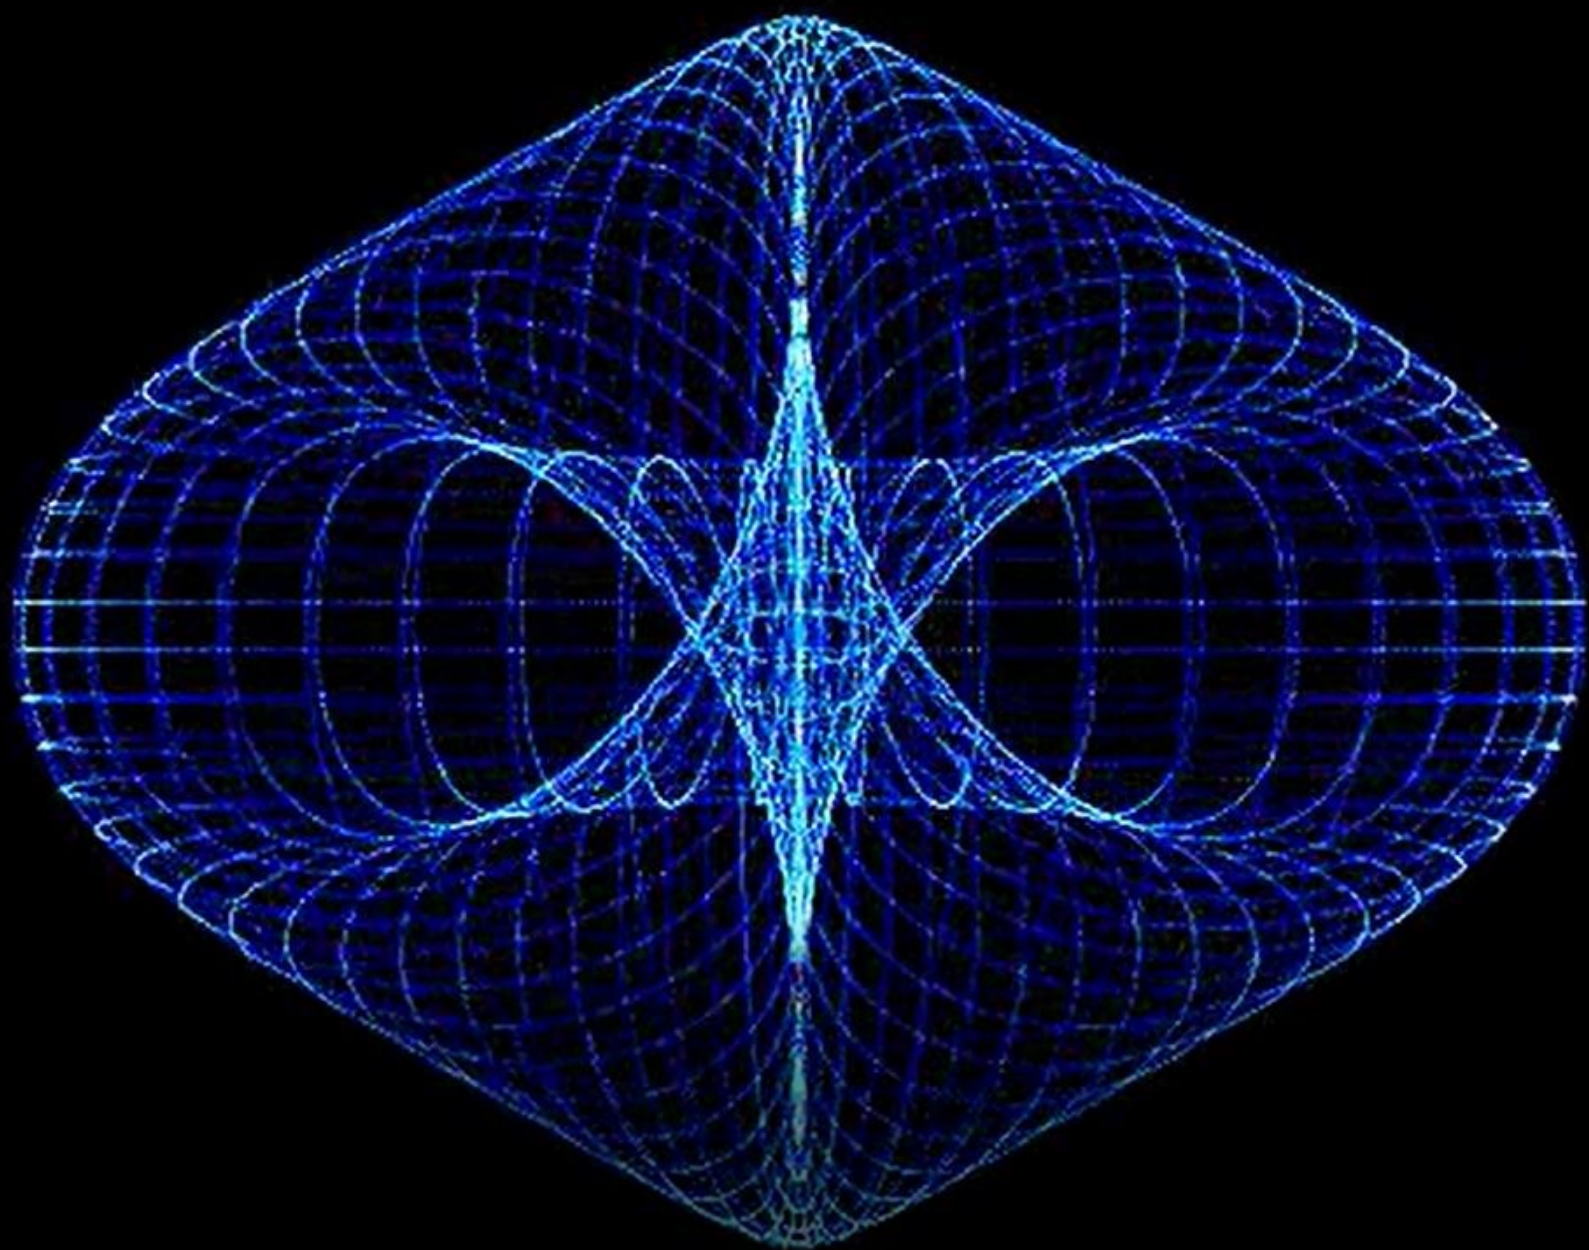

Dramatic end of plasma crystal experiment

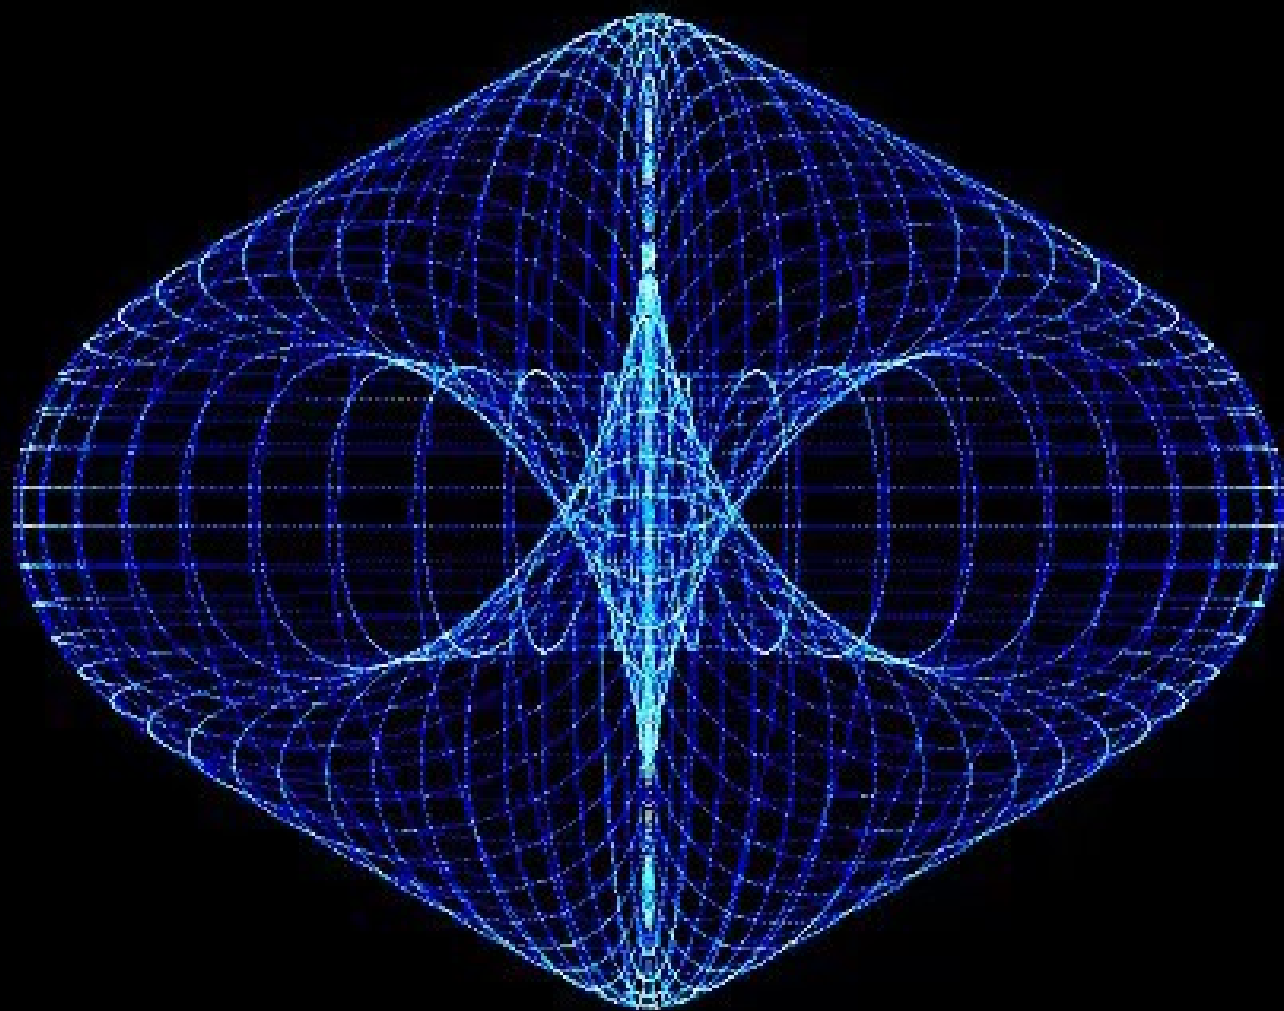

Black-and-white image of a large plasma crystal. Thousands of micron-sized particles form a crystalline lattice; the dark circular region is a common “void” that can appear in these systems.

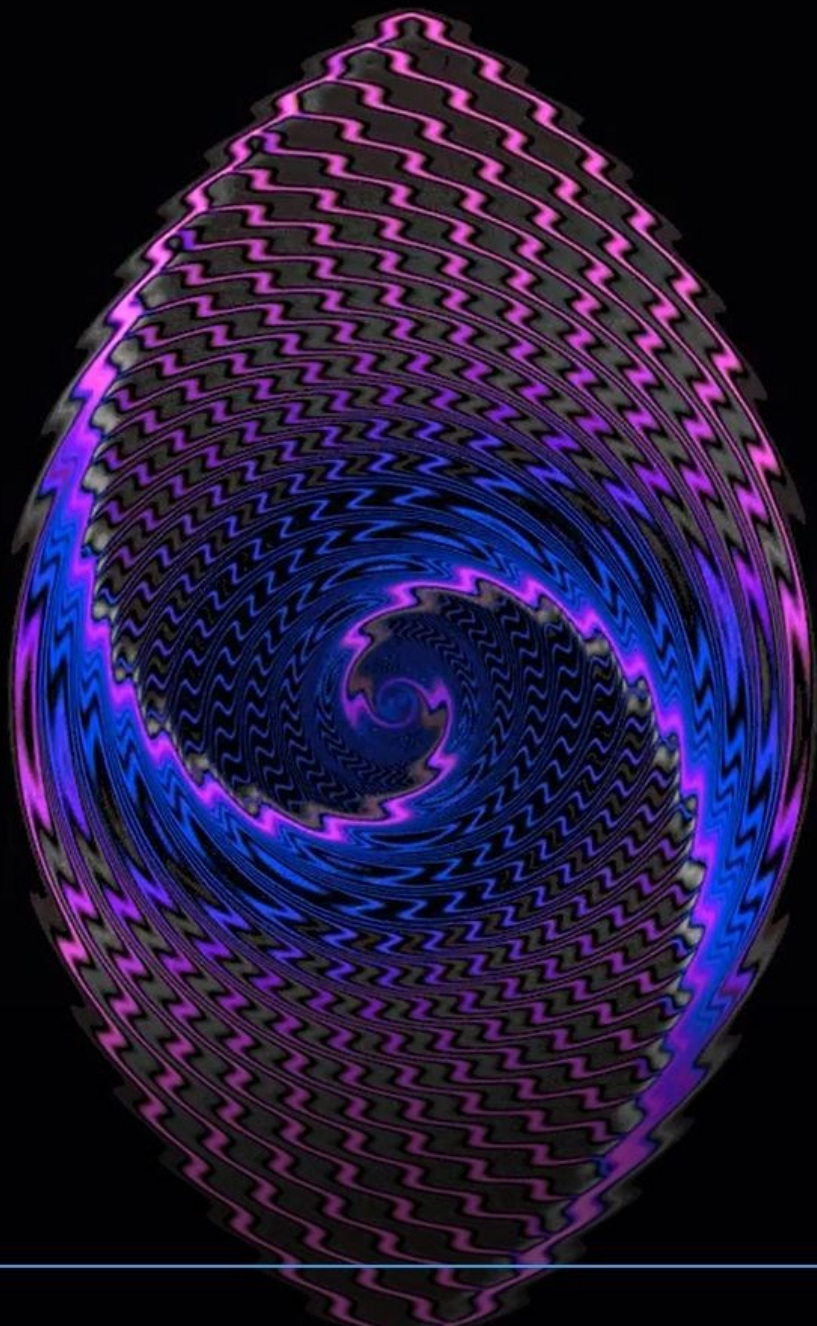

Centrifugal and Centripetal Motion

“One of the fundamental concepts which is grasped by all magical workers, is that both will and desire are force emanations. They differ in quality and vibration, but are essentially currents of energy, one forming an initial vortex or center of activity, being centrifugal, and the other being centripetal, and the main factor in the accretion of matter into a form around the central vortex.”

THE DIAMOND SUTRA TEXTS

seen visually

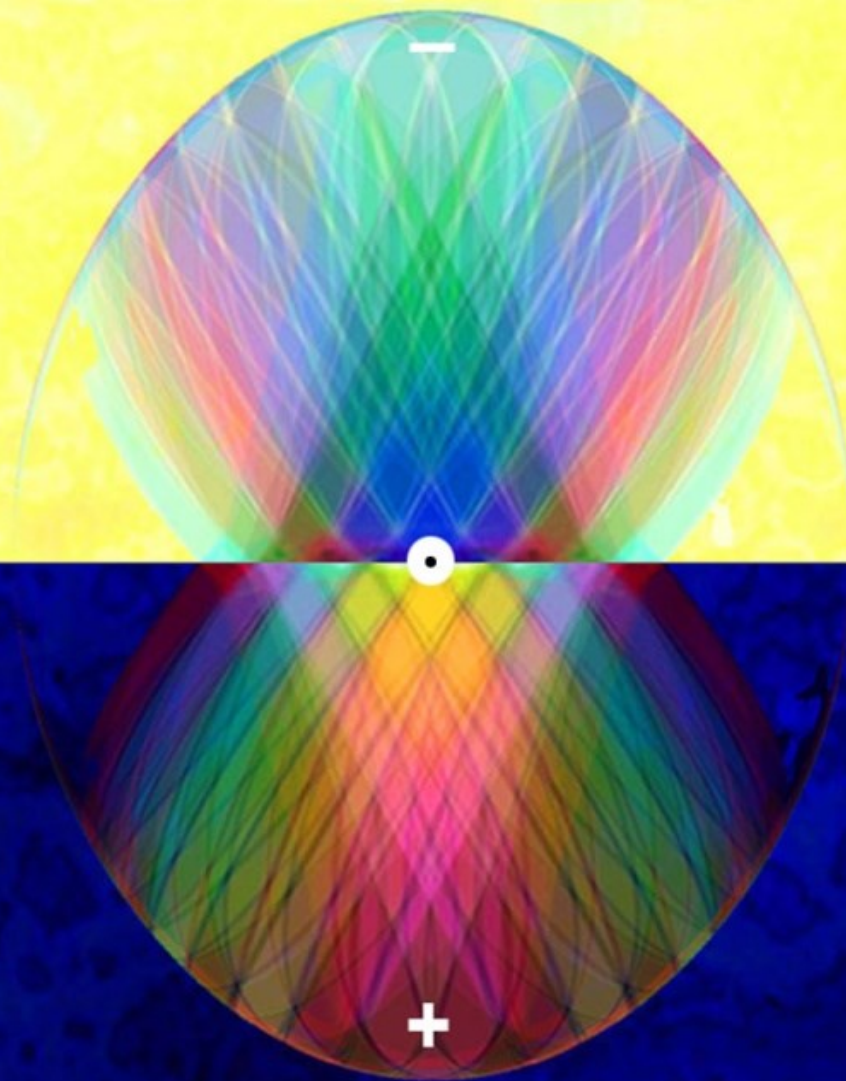

- “The Diamond Sutra is one of the most revered texts of Mahayana Buddhism and a jewel of the world's religious literature.
- The sutra's title in Sanskrit, Vajracchedika Prajnaparamita Sutra, could be very roughly translated as the "diamond-cutting perfection of wisdom sutra." Thich Nhat Hanh says the title means "the diamond that cuts through afflictions, ignorance, illusion, or delusion." It is also sometimes called the Diamond Cutter Sutra, or the Vajra Sutra.”
- The Prajnaparamita Sutras
- “The Diamond is part a large canon of early Mahayana sutras called the Prajnaparamita Sutras. Prajnaparamita means "perfection of wisdom." In Mahayana Buddhism, the perfection of wisdom is the realization or direct experience of sunyata (emptiness)”. (Barbara O'Brien)
